Key Business Objectives

Improved workflow, staff productivity and patient outcomes

Christopher S. Bowlin, MBA BAHS – Cardiopulmonary Manager at Platte Valley Medical Center describes how the ELI™ 380 Resting ECG promotes efficiency at the hospital by maintaining staff productivity and reducing manual data entry errors.

Efficient, User-Friendly Design

“Having an ECG device that incorporates an intuitive user interface and promotes an efficient workflow is critical for maintaining our staff’s satisfaction and productivity. The ELI 380 does just that.”

Streamlined Workflow

“[The ELI 380’s] ability to automatically download patient demographic information and transmit results is a significant workflow improvement. Any time we can eliminate steps and reduce manual data entry is a win for us and ultimately our bottom line.”

About Platte Valley Medical Center

Platte Valley Medical Center is a nationally ranked, 98-bed community hospital that serves patients across three cities in the Brighton, Colorado area. Designated as one of the world’s most patient-centered hospitals by Plantree, Inc., Platte Valley Medical Center offers an advanced Cardiovascular Program, a Primary Stroke Center, and an Accredited Chest Pain Center.

Clinical excellence. Connected solutions. Continuous innovation.
Welch Allyn Cardiology is proud to be powered by Mortara.
