- Contact your Hill-Rom Representative for more information

*1/2 price module must be of equal or lesser value and will always apply to the lowest priced items. Upon request, Hill-Rom will provide information reasonably requested by customers as needed for them to meet their cost reporting obligations. The reports are the responsibility of the customer, but, generally, Hill-Rom expects customers to treat the cost of the "1/2 priced" item as a discount amount that is applied across all items.
