

ADVANCING CONNECTED CARE™

SURGICAL SOLUTIONS

Hillrom™

THE HEART OF HEALTHCARE

Though hospitals around the world have unique visions, different specialties and distinct patient populations, quality surgical and procedural care is essential to success for all of them. In many ways, surgical suites are the heart of healthcare. Because that's where clinical reputations are made and operational excellence achieved.

Constant change—due to advancing technology, increasing specialization and greater complexity—makes it harder for hospitals to realize their vision. More cases and procedures are migrating outside traditional ORs. And there is intense pressure to do more with less.

In such a dynamic market, hospitals must embrace both innovation and efficiency. Because that's how **great outcomes happen and more people receive the care they need.**

ENABLING PEAK PROCEDURAL PERFORMANCE AND CONNECTIVITY ACROSS ALL CARE ENVIRONMENTS

At Hillrom, our mission is to help care teams deliver great outcomes—for all types of patients and procedures, in all kinds of settings. We understand that things run smoothly when environments are designed thoughtfully and all equipment works intuitively and integrates seamlessly.

THAT'S WHY WE FOCUS ON SOLUTIONS THAT PRODUCE RESULTS DAY AFTER DAY.

Smart workflows for setup and turnover to minimize delays in all settings.

Reduced complexity helps eliminate common safety risks.

Versatile design ensures we can get the right equipment in the right room at the right time.

Connectivity provides visibility and insight during procedures and recovery.

Flexible setup features and adaptive positioning ensure patients are ready for procedures sooner.

Advanced capabilities and technology enable innovative care in multiple settings and specialties.

Compatible components integrate easily to facilitate collaboration.

Intuitive and practical features inspire confidence in care teams.

INTEGRATED SOLUTIONS FOR PEAK PERFORMANCE

From tables designed for easy setup and precise positioning, to lights that eliminate shadows, to technology that delivers real-time insights, our products help care teams deliver great outcomes. Plus, our solutions work together seamlessly with other equipment for safer, more productive and efficient clinical environments.

So whether you're looking for site-specific solutions suited to your unique care settings—from traditional, hybrid and robotic ORs to ambulatory surgery centers, spine centers, intensive care units and beyond—or you're looking for a specific surgical application solution, we've got you covered.

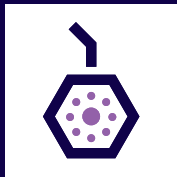

TABLES

Flexible and easily adjustable, with built-in safety features to keep the focus on patients

ACCESSORIES

A full range of specialty and procedure-specific accessory packages so care teams can do their best work

LIGHTS AND CAMERAS

Innovative, adaptable and precise, with options for different care settings, all designed for increased visibility and safety

BOOMS

Modular, flexible and convertible to streamline setup, simplify integration and save space

OR INTEGRATION

Imaging and video integration solutions to enable collaboration and visibility to support advanced procedures

SURGICAL SOLUTIONS

We enable peak procedural performance and connectivity across all care environments. No matter the setting, specialty or procedure, Hillrom surgical solutions help care teams achieve great outcomes.

Hillrom™

ABOUT HILLROM

Hillrom is a global medical technology leader whose 10,000 employees have a single purpose: enhancing outcomes for patients and their caregivers by advancing connected care. Around the world, our innovations touch over 7 million patients each day. They help enable earlier diagnosis and treatment, optimize surgical efficiency and accelerate patient recovery while simplifying clinical communication and shifting care closer to home. We make these outcomes possible through connected smart beds, patient lifts, patient assessment and monitoring technologies, caregiver collaboration tools, respiratory care devices, advanced operating room equipment and more, delivering actionable, real-time insights at the point of care.
