

# MAKE SENSE OF YOUR DATA TO HELP ENHANCE PATIENT SAFETY

## DELIVER MEANINGFUL PATIENT DATA AT THE POINT OF CARE

Hospitals are filled with medical devices and systems that continuously generate data that support clinicians as they provide care to their patients. Reporting solutions play a crucial role in collecting that data and generating additional value.

Hillrom™ Enterprise Reporting solution collects the information that matters and delivers it in a way that is relevant and actionable for caregivers and hospital leadership — all with the aim of helping to improve care for patients, driving operational efficiencies, and enabling accountability.

# 5,000
