

# FEATURES DESIGNED TO REDEFINE HEALTHCARE IN THE ED

Designed as a true hybrid solution, the **Dynamo Series** stretcher delivers the versatility and comfort today's fast-moving care demands.

## PATIENT COMFORT CONTROLS

Patient-directed comfort on a stretcher provides a level of autonomy typically reserved for higher-acuity beds.

## BED-EXIT WITH AUTO RESET, VISUAL INDICATORS & VERBAL ALERTS

A smart safety system that stays vigilant on its own, delivering a level of fall protection most stretchers simply can't match.

## PELVIC POSITIONING

The only integrated exam capability that comes standard, letting clinicians do more in the moment without searching for another space or setup.

## 32-INCH SURFACE WIDTH

The largest non-specialty surface on the market, giving patients the kind of room and reassurance they rarely get on a stretcher.

## STREAMLINED CONNECTIVITY

Direct integration with Voalte and a variety of other hospital platforms sends alerts instantly to caregivers, ensuring updates land where they're needed, when they're needed.

## CHAIR POSITIONING

One button activation to achieve full cardiac chair position to support upright recovery or observation.
