Baxter

TAKE YOUR ED ECG WORKFLOW TO NEW HEIGHTS

AUTO-RECONCILIATION FROM BAXTER CARDIOLOGY

Get STAT ECGs to your physicians for review without delay — with auto-reconciliation from Baxter Cardio Server and **ELI** ECG devices.

Is your team spending time manually reconciling studies to orders for tests performed before the order has been placed?

Automated order reconciliation from Baxter Cardiology's end-to-end solution greatly reduces manual workflow steps used in the Emergency Department and beyond, saving clinicians valuable time.

AUTO-RECONCILIATION WITH BAXTER CARDIOLOGY:

Spend less time manually reconciling ECG studies.

Automate reconciliation even if an order is entered after Cardio Server receives the exam.

Improve billing efficiencies with simplified STAT/order reconciliation process.

SIMPLIFY YOUR ED ECG WORKFLOW

1 Enter correct mandatory patient demographic information.

2 Acquire ECG on Baxter **ELI** 380 or **ELI** 280.

3 Send ECG to Cardio Server.

4 Cardio Server will auto-reconcile to existing and/or future orders.

TAKE ADVANTAGE OF AUTO-RECONCILIATION TODAY

Cardio Server uses mandatory fields below to auto-reconcile exams that are not already associated with an order. Simply configure your **ELI** 380 mandatory fields to match Cardio Server.

1 Patient ID

2 Date of Exam

3 First and Last Name

4 Date of Birth
Optional

Contact your Baxter representative for assistance.
