REMOTE CONTROL

SmartCare™ Remote Management

Take control of the health and well-being of your connected devices by proactively managing them from a single, remote location.

GET PROACTIVE WITH REMOTE CARE

Inadequate medical device software management can delay a facility's response to safety alerts, allow cybersecurity vulnerabilities to be exploited and impact patient safety.¹

SmartCare™ Remote Management allows for more consistent and timely management of connected devices across your enterprise, so you can ensure your fleet is functioning at its finest.

SMARTCARE REMOTE MANAGEMENT IS AVAILABLE FOR THE FOLLOWING:

HILLROM SMART BEDS

Progressa®
Smart+ Bed***

Connex® Vital
Signs Monitor

Welch Allyn
Connex®
Spot Monitor

Welch Allyn
Connex® Integrated
Wall System

Welch Allyn
RetinaVue®
700 Imager

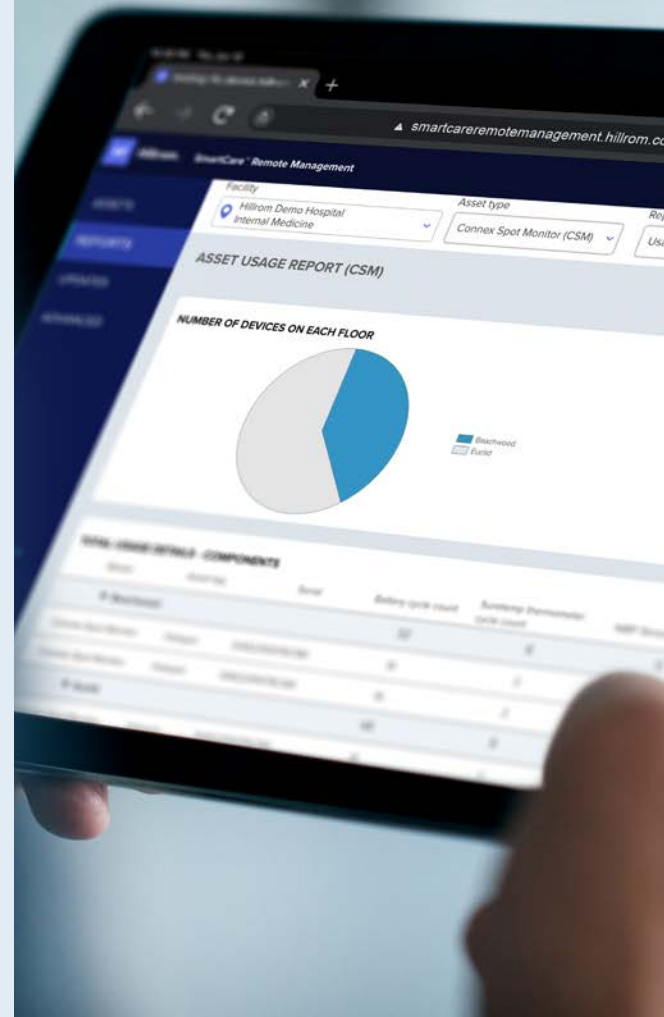

HOW IT WORKS*

SmartCare Remote Management helps you address evolving clinical and service needs more quickly.**

- Deliver the latest firmware updates
- Deploy configuration updates
- Troubleshoot with ease
- Track device location
- Plan preventive maintenance
- View essential device data

It is a secure, cloud-based system that can scale to fit your facility's management requirements. It never interacts with patient health information.

LET'S RESET, TOGETHER

SmartCare Remote Management is a portal that's simple to access and use, putting biomedical and clinical engineers in control of device or asset management, reducing the need to touch each device. This restores valuable time so critical teams can focus their efforts where they're needed most.

SERVICE THAT SCALES

Whether you're managing connected devices in one facility, or fifty, we can help. Get new control and access to your equipment, including near real-time details on deployed assets like firmware and important configurations.

CONNECTED AND COMPLIANT

Security and compliance are vital to you, and your patients. Limit external touchpoints, prevent or reduce service calls from external sources, ensure your devices have the latest firmware and much more.

PROTECT YOUR INVESTMENT

Time is money. Whether it's ensuring your solutions are fixed correctly the first time, or improving preventive maintenance efficiencies, SmartCare™ Remote Management can assist you. It's the remote portal that helps you maintain control while freeing up your team's time to focus on more pressing repairs or urgent matters.

Take control.

Hillrom™

ABOUT HILLROM

Hillrom is a global medical technology leader whose 10,000 employees have a single purpose: enhancing outcomes for patients and their caregivers by advancing connected care. Around the world, our innovations touch over 7 million patients each day. They help enable earlier diagnosis and treatment, optimize surgical efficiency and accelerate patient recovery while simplifying clinical communication and shifting care closer to home. We make these outcomes possible through connected smart beds, patient lifts, patient assessment and monitoring technologies, caregiver collaboration tools, respiratory care devices, advanced operating room equipment and more, delivering actionable, real-time insights at the point of care.
