# REMOTE.
CONTROL.

Hillrom™

SmartCare Remote Management

Take control of the health and well-being of your connected beds by proactively managing them from a single, remote location.

CONNECTED CARE FOR YOUR FACILITY'S CONNECTED ASSETS

Free yourself and your team from the need to manually address each bed individually. Increased efficiency in preventive maintenance, repairs and updates can reduce incidence of clinical disruptions and maximize the life of your fleet.

HOW IT WORKS

SmartCare Remote Management helps you address service needs more quickly:

- Deliver the latest firmware updates
- Troubleshoot with ease
- Track bed location
- Plan preventive maintenance
- View essential device data

It is a secure, cloud-based system that can scale to fit your facility's management requirements. It never interacts with patient health information.

SmartCare Remote Management is available for:

Centrella Smart+ Bed

Progressa Smart+ Bed

60 minutes saved per bed with advanced troubleshooting

LESS DOWNTIME, MORE CARE

Help get your patients back on their feet by ensuring your fleet is operating at its finest. Having more consistent and proactive management of connected beds across your system allows you to better allocate your team's resources.

TAKE CONTROL

- A simple to access and use tool that puts you in control of smart bed management.
- Gives valuable time back to biomed teams by reducing the need to physically touch each bed.
- Enables more consistent and timely management of smart beds with immediate remote access.
- Easy access to up-to-date bed details including near real-time location, required firmware updates and active error codes.

CONNECTED AND COMPLIANT

Security and compliance are vital to you, and your patients.

- Enhance platform security and streamline user-experience with Single Sign-On (SSO capability).
- Limit external touchpoints, prevent or reduce service calls.
- Ensure your beds have the latest firmware, and much more.

PROTECT YOUR INVESTMENT

Time is money. Whether it's ensuring your beds are fixed correctly the first time, or improving preventive maintenance efficiencies, **SmartCare** Remote Management can assist you. It's the remote portal that helps you maintain control while freeing up your team's time to focus on more pressing repairs or urgent matters.

Take control by calling 1-800-445-3730 to contact a Hillrom representative today.
