RESPIRATORY THERAPIES FOR VETERANS

WE'RE HERE TO HELP VETERANS BREATHE EASY

Advanced Respiratory, Inc. (a subsidiary of Baxter), understands veterans and their families deserve a smooth transition home. That's why we provide in-home product training and offer on-going support and service to help bring them peace of mind.

BAXTER THERAPIES FOR RESPIRATORY PATIENTS

For veterans with chronic respiratory disease, the therapy they receive at home makes a difference in their health and quality of life. Their courage and determination are what drive us to provide a full portfolio of proven therapies, from airway clearance to noninvasive ventilation, supported by the **CARE Connex** Program by Baxter our signature service to clinicians, patients and their families. It's a privilege to be part of their lives, helping them live their best every day.

THE VEST AIRWAY CLEARANCE SYSTEM

The **Vest** System delivers High Frequency Chest Wall Oscillation (HFCWO).

- Home and acute care models available
- Multiple programming options for flexible treatment

INDICATIONS

Mobilization of secretions when there is:

- Evidence or suggestion of retained secretions
- Difficulty with secretion clearance
- Presence of atelectasis caused by mucus plugging

MONARCH AIRWAY CLEARANCE SYSTEM

The **Monarch** Airway Clearance System delivers mobile HFCWO therapy, using revolutionary technology that allows patients to move freely during their therapy.

- Multiple programming options for flexible treatment
- Battery powered

INDICATIONS

Mobilization of secretions when there is:

- Difficulty with secretion clearance
- Presence of atelectasis caused by mucus plugging

OUR PURPOSE IS CLEAR

VOLARA SYSTEM

The **Volara** System delivers proven, hospital-level Oscillation and Lung Expansion (OLE) therapy.

- 3-in-1 therapy combines CPEP, CHFO and nebulizer in one system
- Pre-set programs for your therapy protocols
- Use with tracheostomy, mask, mouthpiece or inline ventilator
- Aerosol medication delivery

INDICATIONS

- Lung expansion therapy
- Mobilization of secretions
- Prevention and treatment of pulmonary atelectasis
- Supplemental oxygen delivery when used with oxygen supply

SYNCLARA COUGH SYSTEM

The **Synclara** Cough System simulates a cough, evacuating secretions that could otherwise collect in the upper airways.

- Home and acute care models available
- Use with mask, mouthpiece, or tracheostomy

INDICATIONS

- Secretion evacuation for patients who are unable to cough or clear secretions effectively from upper airways, due to reduced peak cough expiratory flow or respiratory muscle weakness

LIFE2000 VENTILATION SYSTEM

The **Life2000** Ventilation System is a wearable ventilator designed to enable mobility and activity for pulmonary-compromised adults.

- 1-pound unit, designed for mobility
- Mask-free interface helps with patient comfort
- Proprietary **Proportional Open Ventilation (POV)** technology provides needed volume without the drawbacks of a mask
- For use in hospital and at home

INDICATIONS

- Continuous or intermittent ventilatory support for individuals who require mechanical ventilation
- Adult patients who require the following types of ventilatory support:
 - Positive Pressure Ventilation delivered invasively (via ET tube) or non-invasively (via mask).
 - Assist/Control mode of ventilation

CARE CONNEX PROGRAM FOR SUPPORT

Baxter created the **CARE Connex** Program to deliver comprehensive services at every step of the patient journey, offering new efficiencies for you and help to improve the therapy experience for your patients.

- 24-hour clinical care with multilingual customer service and product support
- 600+ in-home licensed clinicians
- Clinical in-home assessments, trainings, outcomes monitoring and reporting
