The Volara™ System
Oscillation & Lung Expansion Therapy

MAXIMIZE PATIENT OUTCOMES IN ACUTE CARE SETTINGS
EXCITING ADVANCEMENTS IN A THERAPY YOU TRUST

Oscillation and Lung Expansion (OLE) therapy has been widely embraced as a proven airway clearance therapy for hospital patients. Now, with The Volara™ System, industry-leading OLE therapy is easier to deliver, more consistently, for a broader range of patients, throughout the hospital—and even at home.

Shorter cycle. Faster results.

Alternating cycles of Continuous Positive Expiratory Pressure (CPEP) and Continuous High Frequency Oscillation (CHFO) combine with aerosol delivery to help maximize therapy effectiveness. In fact, OLE therapy with The Volara System takes just 10 minutes to deliver.

CPEP
Continuous Positive Expiratory Pressure treats and helps prevent pulmonary atelectasis by combining continuous positive pressure with aerosol medication, to help expand and hold the airways open.

CHFO
Continuous High Frequency Oscillation, a pneumatic form of chest therapy, delivers continuous pulses of positive pressure combined with aerosol medication to mobilize and treat retained secretions.

NEBULIZER
Integrated with CPEP and CHFO for maximum treatment efficiency, medication is delivered during therapy to help loosen secretions.
Clinically proven therapy for patients hospital-wide

Tested and proven in acute care settings, OLE therapy has been shown to provide outstanding clinical outcomes.

1.6 DAYS\textsuperscript{1} REDUCTION IN HOSPITAL LENGTH OF STAY

64\%\textsuperscript{1} REDUCTION IN TIME ON VENTILATOR

2 DAYS\textsuperscript{1} REDUCTION IN ICU LENGTH OF STAY

12\%\textsuperscript{4} REDUCTION IN ICU BOUNCE-BACK

The Volara System gives you the versatility to deliver important benefits to patients in multiple hospital settings, with features including:

- **Wide therapeutic pressure range**: Allows you to treat a broad range of patients
- **Programmable therapy presets**: Facilitates standardization of therapy across patient groups
- **Enhanced device mobility**: Enables use throughout the hospital
VERSATILE DESIGN
PRECISION DELIVERY

Intuitive interface for simplified operation
- Interface shows therapy parameters at a glance
- Digital touchscreen allows precise setting of pressures and programs
- Preset protocols support precision and continuity of care
- One-button operation provides quick access to frequently used presets
- Send therapy data to EHR with a standard HL7 interface

Hillrom.® Volara™ System Oscillation & Lung Expansion Therapy
**Dual power source with battery operation and built-in compressor, for operation in a variety of hospital settings**

**Made for portability**
Lightweight, compact design with ergonomically designed stand for easy portability throughout the hospital

Give your team more control by programming multiple protocols into the device

At-a-glance therapy summary shows you treatment details when session is complete

Treat a broad range of patients, with seamlessly-integrated circuit adaptors.

Patented Smart-Filter™ technology with integrated RFID tag tracks single-patient-use circuit for up to 90 treatments

Dual power source with battery operation and built-in compressor, for operation in a variety of hospital settings
HELP MORE PATIENTS BREATHE EASIER

The Volara System makes OLE therapy practical and accessible to more patients in acute care settings. And when they’re discharged, they can continue their OLE therapy at home, using your settings and protocols.
The Volara System comes equipped with the signature support Hillrom is known for. We partner with you to customize your OLE solution, and provide the resources you need to get the best possible outcomes for your patients.

Industry-leading service and support

The Volara System comes equipped with the signature support Hillrom is known for. We partner with you to customize your OLE solution, and provide the resources you need to get the best possible outcomes for your patients.

- Personalized in-service training
- Therapy evaluation
- Continuing Education courses
- Network of like-minded clinicians

ABOUT HILLROM

Hillrom is a global medical technology leader whose 10,000 employees have a single purpose: enhancing outcomes for patients and their caregivers by advancing connected care. Around the world, our innovations touch over 7 million patients each day. They help enable earlier diagnosis and treatment, optimize surgical efficiency and accelerate patient recovery while simplifying clinical communication and shifting care closer to home. We make these outcomes possible through connected smart beds, patient lifts, patient assessment and monitoring technologies, caregiver collaboration tools, respiratory care devices, advanced operating room equipment and more, delivering actionable, real-time insights at the point of care. Learn more at hillrom.com.
