Mobile Surgical Tables

TruSystem® 7000 Mobile Surgical Table
Mobile surgical table package includes TruSystem 7000 Surgical Table, Cable Remote (1767067), Head Section Double Joint (1853828), Leg Section One-Part (1739969), Charging Cable (110181), Cladding Protection (206528), pads
- Patient weight capacity: 1,000 lbs (450 kg)
- Height adjustment: 23” - 45” (59 cm - 114 cm ± 1 cm)
- Trendelenburg / reverse Trendelenburg: ± 45°
- Tilt: ± 30°
- Longitudinal slide: 18” ± 0.2” (46 cm); head: 7” (18 cm); foot: 11” (28 cm)
- Adjustment range joint back section: + 90° / - 45°
- Adjustment range joint leg section: + 90° / - 105°
- Tabletop dimensions (LxW): 79.3” x 23.6” (2,015 mm x 600 mm)
TruSystem 7000 Double Joint Package · Part # 112099

TruSystem® 7000 Mobile Surgical Table, Motorized Base (MB)
Mobile surgical table with motorized base package includes TruSystem 7000 MB Surgical Table, Cable Remote (1767067), Head Section Double Joint (1853828), Leg Section One-Part (1739969), Charging Cable (110181), Cladding Protection (206528), pads
- Patient weight capacity: 1,000 lbs (450 kg)
- Height adjustment: 23” - 45” (59 cm - 114 cm ± 1 cm)
- Trendelenburg / reverse Trendelenburg: ± 45°
- Tilt: ± 30°
- Longitudinal slide: 18” ± 0.2” (46 cm); head: 7” (18 cm); foot: 11” (28 cm)
- Adjustment range joint back section: + 90° / - 45°
- Adjustment range joint leg section: + 90° / - 105°
- Tabletop dimensions (LxW): 79.3” x 23.6” (2,015 mm x 600 mm)
TruSystem 7000 MB Double Joint Package · Part # 112100
TruSystem® 7000dV Mobile Surgical Table Standard Package

Mobile Surgical Table with ISO Center Motion for robotic surgery.
- Components include: Double Joint Head Section (1853828), Short Leg Section (1739969), Charging Cable (110181), Pads, dV Remote Control (1798326) and dV Connection Cable (1816914), Software for table motion.
- Accessories include: 2 Armboards with Snaplock Trigger (111893), Lightweight Transfer Board (2012543), 1 Multi-Task Armboard (112012) and clamp (111839), 1 Component Cart (2069425), 1 Patient Restraint Strap (2068137).
- Two-year Service Coverage including Software Upgrade(s) providing wireless capability* for use with the da Vinci Xi Surgical System.

TruSystem 7000dV Standard Package · Part # 111916

TruSystem® 7000dV Mobile Surgical Table Upgrade

Includes:
- 1dV Remote Control (1798326), dV Connection Cable (1816914), dV Protection+ Service Contract and Software Upgrade

TruSystem 7000dV Table Upgrade · Part # 111917

TruSystem® 7000dV Mobile Surgical Table without ITM

Includes:
- 1dV Remote Control (1798326), Double Joint Head Section (1853828), Short Leg Section (1739969), Charging Cable (110181), Pads, 2 Armboards with Snaplock Trigger (111893), Lightweight Transfer Board (2012543), 1 Rotatable Footboard (111618) and 2 Easy Lock Blade Clamps (111426), 1 Component Cart (2069425), 1 Patient Restraint Strap (2068137).

TruSystem 7000dV Table without ITM · Part # 111883

Not all products are available worldwide. Packages subject to change.
TruSystem® 7500 Mobile Column

Mobile operating column with electrical motorized adjustment for height, lateral tilting and Trendelenburg / reverse Trendelenburg. Integrated power supply and high-capacity battery. Operate column and tabletop via column keypad or wireless remote control.

- Patient weight capacity: 880 lbs (400 kg)
- Height adjustment: 20.1” - 41.7” (51 cm - 106 cm ± 1 cm)
- Lift: 21.7” (55 cm)
- Trendelenburg / reverse Trendelenburg: ± 45°
- Tilt: ± 30°
- Column cladding and base plate made of stainless steel

TruSystem® 7500 Floor Mounted Column

Stationary operating column with electrical motorized adjustment for height, tilt and Trendelenburg / reverse Trendelenburg. Integrated power supply in column. Operate column and tabletop via the column keypad or wireless remote control.

- Patient weight capacity: 880 lbs (400 kg)
- Height adjustment: 20.5” - 42.1” (52 cm - 107 cm ± 1 cm)
- Lift: 21.7” (55 cm)
- Trendelenburg / reverse Trendelenburg: ± 45°
- Tilt: ± 30°
- Rotation: 360° (free rotation)
- Column cladding and base plate made of stainless steel

Requires: Mounting System Fixed Based, 112057 or 112059

TruSystem 7500 Mobile Column - Part # 1730720

TruSystem 7500 Floor Mounted Column - Part # 1730732
TruSystem® 7500 Hybrid Floor Mounted Column - Shimadzu & Toshiba

Stationary operating column with electrical motorized adjustment for height, tilt and Trendelenburg / reverse Trendelenburg. Integrated power supply in column. Operate column and tabletop via the column keypad or wireless remote control.

- Patient weight capacity: 880 lbs (400 kg)
- Height adjustment: 20.5” - 42.1” (52 cm - 107 cm ± 1 cm)
- Lift: 21.7” (55 cm)
- Trendelenburg / reverse Trendelenburg: ± 45°
- Tilt: ± 30°
- Rotation: 360° (free rotation)
- Column cladding and base plate made of stainless steel

Requires: Mounting System Fixed Based, 112058 or 112060

TruSystem® 7500 Hybrid Floor Mounted Column - Part # 1854085

TruSystem® 7500 Hybrid Plus Floor Mounted Column - Siemens & Philips

Stationary operating column with electrical motorized adjustment for height, tilt and Trendelenburg / reverse Trendelenburg. Integrated power supply in column. Operate column and tabletop via the column keypad or wireless remote control.

- Patient weight capacity: 880 lbs (400 kg)
- Height adjustment: 20.5” - 42.1” (52 cm - 107 cm ± 1 cm)
- Lift: 21.7” (55 cm)
- Trendelenburg / reverse Trendelenburg: ± 45°
- Tilt: ± 30°
- Rotation: 360° (free rotation)
- Column cladding and base plate made of stainless steel

Requires: Mounting System Fixed Based, 112058 or 112060

TruSystem 7500 Hybrid Plus Floor Mounted Column - Part # 1854087

TruSystem® 7500 U14 Tabletop U14

One-part operating tabletop with electrically motorized adjustment of leg and back section joints, with longitudinal slide. Dimensions for tabletop with on-floor mounted column.

- Patient weight capacity: 880 lbs (400 kg)
- Height range: 24.49” - 46.14” (62 cm - 117 cm)
- X-ray area: Head - 19.9” (50.6 cm); Foot - 18.7” (47.6 cm)
- Longitudinal slide: 18.1” (46 cm)
- Trendelenburg / reverse Trendelenburg: ± 45°
- Tilt: ± 30°
- Adjustment range of leg section joints: ± 90° to ± 105°
- Adjustment of back section joints: ± 90° / - 105°
- Dimensions (LxW): 32.8” x 23.6” (83 cm x 60 cm)
- Load-bearing structure made of stainless steel
- Replacement pad: 1909816

OR Tabletop U14 H V U · Part # 1909800

TruSystem® 7500 U24 Tabletop

Two-part operating tabletop with electrically motorized adjustment of leg and back section joints, with longitudinal slide. Dimensions for tabletop with on-floor mounted column.

- Patient weight capacity: 880 lbs (400 kg)
- Height range: 20.5” - 42.1” (52 cm - 107 cm)
- X-ray area: Head - 28.1” (71.5 cm); Foot - 17.5” (44.5 cm)
- Longitudinal slide: 15.7” (40 cm)
- Trendelenburg / reverse Trendelenburg: ± 45°
- Tilt: ± 30°
- Adjustment range of leg section joints: ± 90° / - 105°
- Adjustment of back section joints: ± 90° / - 55°
- Adjustment of lower back section joints: ± 90° / - 55°
- Dimensions (LxW): 42.1” x 23.6” (107 cm x 60 cm)
- Load-bearing structure made of stainless steel
- Replacement pad: 1982388

OR Tabletop U24 H V U · Part # 1909797
**TruSystem® 7500 U26 Tabletop**

Two-part operating tabletop with electrically motorized adjustment of the leg section joints, back section and back section joints, with longitudinal slide. Dimensions for tabletop with on-floor mounted column.

- **Patient weight capacity:** 880 lbs (400 kg)
- **Height range:** 20.5” - 42.1” (52 cm - 107 cm)
- **X-ray area:** Head - 27” (68.5 cm); Foot - 14.7” (37 cm)
- **Longitudinal slide:** 15.7” (40 cm)
- **Trendelenburg / reverse Trendelenburg:** ± 45°
- **Tilt:** ± 30°
- **Adjustment range of leg section joints:** ± 105°
- **Adjustment of lower back section joints:** + 90° / - 55°
- **Adjustment of head section joints:** + 90° / - 105°
- **Dimensions (LxW):** 42.1” x 23.6” (107 cm x 60 cm)
- **Load-bearing structure made of stainless steel**
- **Replacement pad:** 1909814

**OR Tabletop U26 H V U · Part # 1909794**

---

**TruSystem® 7500 ST26 Tabletop**

Two-part operating tabletop with hook coupling points, electrically motorized adjustment of leg section joints, back section, back section joints, with longitudinal slide and additional Trendelenburg function. Dimensions for tabletop with on-floor mounted column.

- **Patient weight capacity:** 792 lbs (360 kg)
- **Longitudinal slide:** 15.75” (40 cm)
- **Trendelenburg:** ± 45° from column + ±20° tabletop
- **Adjustment range of leg section joints:** + 90° / - 105°
- **Adjustment of lower back section joints:** + 90° / - 50°
- **Adjustment of upper back section joints:** + 90° / - 105°
- **Dimensions (LxW):** 42.1” x 24.5” (1070 mm x 601 mm)
- **Load-bearing structure made of stainless steel**
- **Replacement pad:** 1909814

**OR Tabletop ST26 H V U · Part # 2029418**

---

**TruSystem® 7500 SQ14 Tabletop**

One-part operating tabletop with electrically motorized adjustment of leg and back section joints, as well as longitudinal and transversal shift. Dimensions for tabletop with on-floor mounted column.

- **Patient weight capacity:** 496 lbs (225 kg)
- **Longitudinal slide:** 13.8” (350 mm)
- **Transversal slide:** ± 3.5” (± 88 mm)
- **Adjustment range of leg section joints:** ± 90°
- **Adjustment of lower back section joints:** ± 90°
- **Dimensions (LxW):** 27.5” x 23.6” (699 mm x 600 mm)
- **Load-bearing structure made of stainless steel**
- **Replacement pad:** 1851926

**OR Tabletop SQ14 U V · Part # 1846395**

---

**TruSystem® 7500 SQ14 X-TRA Tabletop**

One-part operating tabletop with electrically motorized adjustment of leg and back section joints as well as longitudinal and transversal shift. Permanently mounted carbon segments at the head and foot end. Dimensions for tabletop with on-floor mounted column.

- **Patient weight capacity:** 352.7 lbs (160 kg)
- **X-ray area:** Head - 36.2” (92 cm); Foot - 59.5” (151 cm)
- **Longitudinal slide:** 13.8” (350 mm)
- **Transversal slide:** ± 3.5 in (± 88 mm)
- **Trendelenburg / reverse Trendelenburg:** ± 45°
- **Tilt:** ± 30°
- **Adjustment range of leg section joints:** ± 90°
- **Adjustment of lower back section joints:** ± 90°
- **Dimensions (LxW):** 94.3 in x 23.6 in (2395 mm x 600 mm)
- **Load-bearing structure made of stainless steel**
- **Replacement pad:** 1851926

**OR Tabletop SQ14 X-TRA U T · Part # 1581502**
TruSystem® 7500 Carbon X-TRA Tabletop
One-part operating tabletop made of carbon fiber with electrically motorized adjustment of longitudinal and lateral slide, with a coupling point at the foot end for attaching head positioning accessories. Dimensions for tabletop with on-floor mounted column.
- Patient weight capacity: 396.8 lbs (180 kg)
- 360° radiolucent
- X-ray area - Head end: 55.1" x 20.5" (1400 mm x 520 mm), Foot end: 18.1" x 20.5" (460 mm x 520 mm)
- Longitudinal slide: 17.9" (455 mm)
- Lateral slide: ± 3.3" (± 85 mm)
- Dimensions (LxW): 82.1" x 22" (2085 mm x 560 mm)
- Replace pad: 1851928

TruSystem® 7500 Carbon FloatLine Tabletop
One-part operating tabletop made of carbon fiber with electrically motorized adjustment of longitudinal and lateral slide with coupling point at the head end for attaching head positioning accessories. Dimensions for tabletop with on-floor mounted column.
- Patient weight capacity: 496 lbs (225 kg); articulated: 396 lbs (180 kg)
- 360° radiolucent
- X-ray area: Head end: 70.9" x 20.5" (1800 mm x 520 mm); with headrest: 82.7" x 20.5" (2100 mm x 520 mm)
- Longitudinal slide: 31.4" (80 cm) (fixed)
- Lateral slide: ± 4.9 in (± 12.5 cm)
- Trendelenburg / reverse Trendelenburg: ± 45°
- Tilt: ± 30°
- Dimensions (LxW): 90.1 in x 22 in (2290 mm x 560 mm)
- Replacement pad: 1797654

TruSystem® PTS Combi Suite U Tabletop
One-part operating tabletop for use in combination with MAGNETOM Combi Suite Neurosurgery (Siemens product); electrically motorized adjustment of longitudinal and lateral slide for attaching the Transfer Board (Siemens product) with coupling points for the Combi Dockable Table (Siemens product). Dimensions for tabletop with on-floor mounted column.
- Maximum load: 352.7 lbs (160 kg)
- Longitudinal slide: 17.9 in (455 mm)
- Lateral slide: ± 3 in (± 85 mm)

TruSystem® MR Neuro Tabletop
Dimensions for tabletop with on-floor mounted column.
- Patient weight capacity: 397 lbs (180 kg)
- Longitudinal slide: 18.6" (472 mm)
- Trendelenburg / reverse Trendelenburg: ± 45°
- Tilt: ± 30°
- Lateral slide: 9.8" (25 cm) (4.9" (12.5 cm) to the right and left from the level position)
- Adjustment of lower back section joints: 30° upwards
- Dimensions (LxW): 103.6" x 17.7" - 21.3" (2631 mm x 450 mm - 540 mm)

TruSystem® 7500 Carbon X-TRA Tabletop
One-part operating tabletop made of carbon fiber with electrically motorized adjustment of longitudinal and lateral slide, with a coupling point at the foot end for attaching head positioning accessories. Dimensions for tabletop with on-floor mounted column.
- Patient weight capacity: 396.8 lbs (180 kg)
- 360° radiolucent
- X-ray area - Head end: 55.1" x 20.5" (1400 mm x 520 mm), Foot end: 18.1" x 20.5" (460 mm x 520 mm)
- Longitudinal slide: 17.9" (455 mm)
- Lateral slide: ± 3.3" (± 85 mm)
- Dimensions (LxW): 82.1" x 22" (2085 mm x 560 mm)
- Replace pad: 1851928

Free Float Carbon · Part # 1616201

Operating Table top PTS Combi Suite U · Part # 1742297

Operating Topo MR Neuro · Part # 2064888
TruSystem® Carbon Spine Tabletop with Standard Positioning Package

One-part operating tabletop made of carbon fiber bars with electrically motorized adjustment of longitudinal shift and coupling point at the head end for attaching head positioning accessories.

• Patient weight capacity: 496 lbs (225 kg)
• X-ray area: 64.6" x 17" (1640 mm x 432 mm)
• Longitudinal shift: 31.5" (800 mm) (fixed)
• Dimensions (LxW): 80.7" x 17" (2050 mm x 432 mm)

Includes:
(1) Carbon Spine Tabletop, 2065423
(6) Supine Accessory Top 12", 2066007
(6) Supine Accessory Top Pad 2", 2066008
(1) Supine Filler Top 8", 112069
(1) Supine Filler Top 8" Pad 2", 112070
(1) Advance Chest Support w/ Pad, 2066000
(2) Advance Hip Support (Medium) w/ Pad, 2066001
(2) Advance Hip Support (Large) w/ Pad, 2066003
(1) Advance Thigh Support w/Pad - left, 2066005
(1) Advance Thigh Support w/Pad - right, 2066006
(1) Sling Support, 2066015
(1) Allen Advance Pillow - Standard, 2065998
(1) Advance Head Plate, 2065999
(3) Accessory Rail Clamp, Carbon Spine, 2067212
(2) Rail Top Armboard Rail, 2066009
(2) Advance Arm Support, 2066014
(1) Foam Head Block, Disposable, case, 2016441
(1) Foam Arm Supports, 2066016
(1) Ultra Comfort Covers, Medium, 2016446
(1) Ultra Comfort Covers, Large, 2016448
(1) Medium Security Strap, w/ Pad, 2068137

Operating Tabletop Pediatrics U · Part # 1340395

Table Components

Head Section, Double Joint

Dual articulating headrest featuring formed pad with concave indentation to support the head and integral x-ray cassette channel. Standard Component for 7000, 7000dV Surgical Tables. Attaches to TruSystem hook/coupling point system. Connects to the Small (S) coupler - Refer to Compatibility Reference Chart in Index.

- Adjustment range: Upper Joint +45° / -30°; Lower Joint: +45°
- Dimensions (LxWxH): 15.3” x 24.6” x 3.74” (389 mm x 625 mm x 95 mm)
- Siderail dimensions (LxW): 1.12” x 0.37” (28.6 mm x 9.5 mm)
- Weight capacity: 1,000 lbs (454 kg) when complying with the conditions that apply for the operating table
- Load-bearing structure made of stainless steel and hardened aluminum
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad: 1764878

Leg Section, One-Part

Leg section featuring integral handle to easily carry at your side. Standard Component for 7000, 7000dV Surgical Tables. Attaches to TruSystem hook/coupling point system. Connects to the Large (L) coupler - Refer to Compatibility Reference Chart in Index.

- Width of X-ray area: 15.3” (389 mm)
- Dimensions (LxWxH): 24.2” x 23.6” x 3.5” (615 mm x 600 mm x 89 mm)
- Siderail dimensions (LxW): 1.12” x 0.37” (28.6 mm x 9.5 mm)
- Weight capacity: 1,000 lbs (454 kg) when complying with the conditions that apply for the operating table
- Load-bearing structure made of hardened aluminum
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad: 1756392

Head Section Double Joint H U V · Part # 1853828

Leg Section One-Part H U · Part # 1739969
Pelvic Section Extension

Attaches to the TruSystem hook/coupling point system for an extension of 12” (305 mm). Connects to Medium (L) coupler - Refer to Compatibility Reference Chart in Index.

- Dimensions (LxWxH): 12.05” x 23.66” x 3.94” (306 mm x 601 mm x 100 mm)
- Siderail dimensions (LxW): 1.1” x 0.4” (28.6 mm x 10 mm)
- Load capacity: 1,000 lbs (454 kg) in standard articulation when complying with the conditions that apply for the operating table
- Adj ustment range joints: 90° and 45°
- Load-bearing structure made of aluminum
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad options: Pads with Uro Cutout, 2012542; Pads without Uro Cutout, 1809671

Optional: Lightweight Transfer Board, 2012543

Pelvic Section Extension H V U · Part # 1909820

Leg Section, Split Two-Parts

Attaches to TruSystem hook/coupling point system. Connects to the Medium (M) coupler - Refer to Compatibility Reference Chart in Index.

- Dimensions (LxW): 32.3” x 11.5” (820 mm x 292 mm)
- Siderail dimensions (LxW): 1.12” x 0.37” (28.6 mm x 9.5 mm)
- Weight capacity: 1000 lbs (454 kg) in standard articulation when complying with the conditions that apply for the operating table
- Adjustment range joints: 90° and 45°
- Load-bearing structure made of aluminum
- Radiolucent (between the siderails)
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad options: Pads with Uro Cutout, 2012542; Pads without Uro Cutout, 1809671

Leg Section Two Parts Spread Joint H U · Part # 1739991

Leg Section, Split Four-Parts

Attaches to TruSystem hook/coupling point system. Adjustable up to three inches with two stop positions. Medium (M) coupler - Refer to Compatibility Reference Chart in Index.

- Dimensions (LxWxH): 32” x 11” x 6.3”
- Siderail dimensions (LxW): 1.12” x .37”
- Weight capacity: 1,000 lbs (454 kg) in standard articulation when complying with the conditions that apply for the operating table
- Load-bearing structure made of aluminum
- Radiolucent (between the siderails)
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad: 1851579

Leg Section Four Parts Spreadable H U V · Part # 1853829

Lightweight Transfer Board

Positioning board used for pre- and post-operative lithotomy positioning. Attaches to TruSystem hook/coupling point system. Connects to the Medium (M) coupler - Refer to Compatibility Reference Chart in Index.

- Dimensions (LxWxH): 40.2” x 22” x 3.4” (1020 mm x 560 mm x 86 mm)
- Weight capacity: 297.6 lbs (135 kg) when complying with the conditions that apply for the operating table
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad: 1783522

Lightweight Transfer Board · Part # 2012543
Shoulder Chair H, Coupler Mounted

Attaches to TruSystem hook/coupling point system, powered by the leg section drive. Two removable shoulder panels for optimal access. Includes head support, lateral brace and pad set. Connects to the Large (L) coupler in reverse patient orientation - Refer to Compatibility Reference Chart in Index.

- Patient weight capacity: 500 lbs
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Optional: Disposable Facemask, 111608 (case of 12); Disposable Head and Chin Strap, 111607 (case of 12); Shoulder Chair Dolly, 111606; Pad Knee Flex, 111552

Shoulder Chair H (Coupler Mounted) - Part # 2009875

Upper Back Section

Attaches to TruSystem hook/coupling point system.  
- Length: 12” (305 mm)  
- Made of stainless steel  
- Weight capacity: 881.85 (400 kg) when complying with the conditions that apply for the operating table  
- Compatible with TruSystem 7500 Surgical Tables  
- Replacement pad: 1909813

Upper Back Section H V U - Part # 1909813

TruSystem® Tabletop Segment Carbon 600

Attaches to TruSystem hook/coupling point system. Connects to the Large (L) coupler - Refer to Compatibility Reference Chart in Index.

- Dimensions (LxWxH): 27.2” x 24.4” x 3.5” (690 mm x 620 mm x 90 mm)
- Length from coupling point to end of table top: 19” (480 mm)
- Patient weight capacity: 352 lbs (160 kg) when complying with the conditions that apply for the operating table
- Made of carbon fiber, coupling point made of stainless steel
- 360° Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad: 1770133

Tabletop Segment Carbon 600 U H - Part # 1739992

TruSystem® Tabletop Segment Carbon 1200

Attaches to the TruSystem hook/coupling point system for 360° radioluence. Connects to Large (L) coupler - Refer to Compatibility Reference Chart in Index. Pad included.

- Dimensions (LxWxH): 51.2” x 24.4” x 3.6” (1300 mm x 620 mm x 90 mm)
- Carbon length: 47.23” (1200 mm)
- Patient weight capacity in normal orientation: 353 lbs when complying with the conditions that apply for the operating table
- Made of carbon board; stainless steel hook/couplers
- 360° Radiolucent
- Replacement pad: 1851580

Tabletop Segment Carbon 1200 H V - Part # 1850989
Cladding Protection

Snaps around the base of the table via magnetic clasp to protect the space the cladding needs when adjusting the height of your TruSystem mobile table.

- Dimensions (L x W): 15.9" x 17.8" x 2.4" (40.3 cm x 45.2 cm x 6 cm)
- Made of stainless steel
- Compatible with TruSystem 7500, 7000 and 7000dV Surgical Tables

Cladding Protection · Part # 2069528

Head Supports

**Head Section, Double Joint**

Dual articulating headrest featuring formed pad with concave indentation to support the head and integral x-ray cassette channel. Standard Component for 7000, 7000dV Surgical Tables. Attaches to TruSystem hook/coupling point system. Connects to the Small (S) coupler - Refer to Compatibility Reference Chart in Index.

- Adjustment range: Upper Joint +45° / -30°; Lower Joint: +45°
- Dimensions (LxWxH): 15.3” x 24.6” x 3.74” (389 mm x 625 mm x 95 mm)
- Siderail dimensions (LxW): 1.12” x 0.37” (28.6 mm x 9.5 mm)
- Weight capacity: 1,000 lbs (454 kg) when complying with the conditions that apply for the operating table
- Load-bearing structure made of stainless steel and hardened aluminum
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad: 1764878

**Radiolucent Head Section**

Wide, radiolucent head section that is compatible with various imaging adapters.

- Dimensions (LxW): 8” x 21” (200 mm x 530 mm)
- Made of carbon fiber
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad: 111269

---

Head Section Double Joint H U V · Part # 1853828

Head Section X-ray Wide T · Part # 1424577
Radiolucent Helmet

Fully radiolucent, attaches to various imaging adapters. Two straps ensure safe positioning and lateral support for the head. Adjustable to various head sizes ranging from pediatric to adults.
• Made of hard plastic (Polyoxymethylen (POM))
• Radiolucent
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Requires: Radiolucent Adapter

Radiolucent Skull Clamp

Radiolucent Cranial Skull Clamp with three-point fixation for head support used for neuro/spinal surgeries.
• Dimensions (LxWxH): 12” - 16” x 5” x 14”
• Made of radiolucent material
• Radiolucent
• MRI conditional
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Skull Clamp X-ray · Part # 1317569

Radiolucent Horseshoe Headrest

Radiolucent, horseshoe shaped headrest; attaches to all radiolucent adapters.
• Adjustment range: 45°
• Dimensions (LxWxH): 8” x 10” x 4” (200 mm x 250 mm x 100 mm)
• Made of carbon fiber
• Radiolucent
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Headrest Horseshoe-shaped Two Parts · Part # 4549732

Horseshoe Headrest, Two-Part

Attaches to connection holder via integral clamps; adjustable to head size.
• Dimensions (LxW): 7” x 7” (180 mm x 180 mm)
• Load-bearing structure made of stainless steel
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Headrest Horseshoe-shaped Two Parts · Part # 4549732
Skull Clamp
Attaches to Skull Clamp Adapter (1218969) or Interface Skull Clamp AL (1866513) for stable and precise three-point skull fixation with skull pins.
• Made of aluminum
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
• Manufactured by Pro Med Instruments GmbH

Horseshoe Headrest, Adult
Horseshoe shaped headrest designed for prone or supine positioning for adult-sized patients. Features extension bar for skull traction and durable comfort gel pads. Connects to Swivel Adapter (1218969).
• Made of cast aluminum
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Headrest, Narrow
Designed for Ophthalmology and ENT procedures. Headrest attaches to Connection Holder with Joint Short (4544733) as well as Retainer for Headrests Vario (1300079). Integral clamp.
• Dimensions (LxW): 10” x 8” (250 mm x 200 mm)
• Load-bearing structure made of stainless steel
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Headrest Flat 20
Attaches to Retainer for Headrests Vario (1300079). Optimal for ENT and Ophthalmology procedures.
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Skull Clamp - Part # 1218968
Horseshoe for Adults - Part # 1218974 (pictured)
Headrest for Children - Part # 1218973
Headrest, Narrow - Part # 4549730
Headrest Flat 20 - Part # 1256701

Requires: Connection Holder with Joint Short, 4544733 or Connection Holder with Joint, 4544729 and Joint Short, 4544733

Requires: Retainer for Headrests Vario, 1300079
Body Supports

**Upper Back Section**

- Attaches to TruSystem hook/coupling point system.
- Length: 12” (305 mm)
- Made of stainless steel
- Weight capacity: 881.85 (400 kg) when complying with the conditions that apply for the operating table
- Compatible with TruSystem 7500 Surgical Tables
- Replacement pad: 1909813

**Pelvic Section Extension**

- Attaches to the TruSystem hook/coupling point system for an extension of 12” (305 mm). Connects to Medium (L) coupler - Refer to Compatibility Reference Chart in Index.
- Dimensions (LxWxH): 12.05” x 23.66” x 3.94” (306 mm x 601 mm x 100 mm)
- Siderail dimensions (LxW): 1.1” x 0.4” (28.6 mm x 10 mm)
- Load capacity: 496 lbs (250 kg) when complying with the conditions that apply for the operating table
- Load-bearing structure made of stainless steel
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad: 1909819

*Optional: Lightweight Transfer Board, 2012543

Pelvic Section Extension H V U · Part # 1909820
Shoulder Chair, Coupler Mounted

Attaches to TruSystem hook/coupling point system, adjusted via integral table motors through table remote control. Two removable shoulder panels for optimal access. Includes head support, lateral brace and pad set. Connects to the Large (L) coupler in reverse patient orientation - Refer to Compatibility Reference Chart in Index.

- Patient weight capacity: 500 lbs
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Optional: Disposable Facemask, 111608 (case of 12); Disposable Head and Chin Strap, 111607 (case of 12); Shoulder Chair Dolly, 111606; Pad Knee Flex, 111552

Shoulder Chair H (Coupler Mounted) · Part # 2009875

Width Extender, Pair

Connect to the siderails on the back, seat and foot sections via integral clamp. The set of extenders add width of 10" to table, totaling 33.6".

- Dimensions (LxWxH): 22" x 5" x 6" (560 mm x 125 mm x 150 mm)
- Max load capacity: 55 lbs per side
- Load-bearing structure made of stainless steel
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad: 111230

Optional: Disposable Facemask, 111608 (case of 12); Disposable Head and Chin Strap, 111607 (case of 12); Shoulder Chair Dolly, 111606; Pad Knee Flex, 111552

Width Extender for TruSystem Tables (pair) · Part # 1255814

Bariatric Table Width Extender, Pair

Increases support surface of surgical table by 8" on each side. Attaches to siderails associated with the back, seat, and leg sections. Short extender provides space on table rail for weight-bearing accessories.

- Patient weight capacity: 1,000 lbs
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Requires: Bariatric Table Width Expender Pads, call customer service to order, no set part number.

Bariatric Table Width Extender, 8" x 11" · Part # F-80150
Bariatric Table Width Extender, 8" x 15" · Part # F-80100

Side Guard, Pair

Attaches to siderail of back or seat section via integral clamp. Pull-to-release for 90, 180, -90 articulation.

- Made of stainless steel
- Dimensions (LxWxH): 28.3" x 10.4" x 1.6" (720 mm x 265 mm x 40 mm)
- Maximum load capacity: 88.2 lbs per side (40 kg)
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Optional: Side Guard Pad · Part # 1479197

Side Guard Pair · Part # 4544434
Pad for Side Guard · Part # 1479197
Universal Patient Braces

Stabilizes patients for lateral procedures. Braces swivel to ensure proper support.
• Weight capacity: 400 lbs
• Made of stainless steel
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Includes: 2 Single Rectangular Supports (F-UPBL3S) and 1 Single Circular Support (F-UPBLC)

Requires: Easy Lock, Blade Clamp, 111426

Universal Patient Braces (3-piece set) - Part # F-UPBL3S

Single Rectangular Support

Stabilizes patients for lateral procedures. Braces swivel to ensure proper support.
• Weight capacity: 400 lbs
• Made of stainless steel
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Requires: Easy Lock, Blade Clamp, 111426

Single Rectangular Support (single) - Part # F-UPBLR

Single Circular Support

Stabilizes patients for lateral procedures. Braces swivel to ensure proper support.
• Weight capacity: 400 lbs
• Made of stainless steel
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Requires: Easy Lock, Blade Clamp, 111426

Single Circular Support (single) - Part # F-UPBLC
Leg Supports

**Leg Section, One-Part**
Leg section featuring integral handle to easily carry at your side. Standard Component for 7000, 7000dV Surgical Tables. Attaches to TruSystem hook/coupling point system. Connects to the Large (L) coupler - Refer to Compatibility Reference Chart in Index.
- Width of X-ray area: 15.3" (389 mm)
- Dimensions (LxWxH): 24.2" x 23.6" x 3.5" (615 mm x 600 mm x 89 mm)
- Siderail dimensions (LxW): 1.12" x 0.37" (28.6 mm x 9.5 mm)
- Weight capacity: 1,000 lbs (454 kg) when complying with the conditions that apply for the operating table
- Load-bearing structure made of hardened aluminum
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad: 1756392

**Rotatable Footboard**
Mounts vertically to siderails via clamps as a foot support when using reverse Trendelenburg, rotates to use as a table extension.
- Adjustable in width: 22.53" to 24.88" (572.26 mm x 631.95 mm)
- Weight capacity: 500 lbs
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad: 112066

Requires: (2) Rail Clamp, Simple, 20-2001006 or (2) Easy Lock, Blade Clamp, 111426

Foot Support, One-Part; Rotatable · Part # 111618

Leg Section One-Part H U · Part # 1739969
Adjustable Footboard

Mounts to siderails via two clamps. Mounts vertically as a foot support when using reverse Trendelenburg.
- Adjustable width accommodates outside rail dimensions of 21” to 23.25”
- Weight capacity: 500 lbs
- Made of stainless steel
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad: 112067

Requires: (2) Rail Clamp, Simple, 20-2001006 or (2) Easy Lock, Blade Clamp, 111426

Foot Support, One-Part; Adjustable · Part # 111932

Leg Section, Split Two-Parts

Attaches to TruSystem hook/coupling point system. Connects to the Medium (M) coupler - Refer to Compatibility Reference Chart in Index.
- Dimensions (LxWxH): 32.3” x 11.5” x 80 mm x 292 mm
- Siderail dimensions (LxW): 1.12” x 0.37” (28.6 mm x 9.5 mm)
- Weight capacity: 1,000 lbs (454 kg) in standard articulation when complying with the conditions that apply for the operating table
- Adjustment range joints: 90° and 45°
- Load-bearing structure made of aluminum
- Radiolucent (between the siderails)
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad options: Pads with Uro Cutout, 2012542; Pads without Uro Cutout, 1809671

Foot Support, Two Parts Spread Joint H U · Part # 1739991

Leg Section, Split Four-Parts

Attaches to TruSystem hook/coupling point system. Adjustable up to three inches with two stop positions. Medium (M) coupler - Refer to Compatibility Reference Chart in Index.
- Dimensions (LxWxH): 32” x 11” x 6.3”
- Siderail dimensions (LxW): 1.12” x .37”
- Weight capacity: 1,000 lbs (454 kg) in standard articulation when complying with the conditions that apply for the operating table
- Load-bearing structure made of aluminum
- Radiolucent (between the siderails)
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad: 1851579

Foot Support, Two Parts Spreadable H U V · Part # 1853829

Split Leg Footboard

Attach to siderails through integral clamps. Adjustable at pivot points. Mounts vertically as a foot support when using reverse Trendelenburg.
- Dimensions (LxWxH): 16” x 13” x 3” (430 mm x 340 mm x 80 mm)
- Weight capacity: 88 lbs per side (40 kg)
- Made of stainless steel
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Foot Support, Two Parts · Part # 1265545
### TruSystem® Tabletop Segment Carbon 600

- Attaches to TruSystem hook/coupling point system. Connects to the Large (L) coupler - Refer to Compatibility Reference Chart in Index.
- Dimensions (LxWxH): 27.2" x 24.4" x 3.5" (690 mm x 620 mm x 90 mm)
- Length from coupling point to end of table top: 19" (480 mm)
- Patient weight capacity: 352 lbs (160 kg) when complying with the conditions that apply for the operating table
- Made of carbon fiber, coupling point made of stainless steel
- 360° Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad: 1770133

Tabletop Segment Carbon 600 U H · Part # 1739992

### TruSystem® Tabletop Segment Carbon 1200

- Attaches to the TruSystem hook/coupling point system for 360° radioluence. Connects to Large (L) coupler - Refer to Compatibility Reference Chart in Index. Pad included.
- Dimensions (LxWxH): 51.2" x 24.4" x 3.6" (1300 mm x 620 mm x 90 mm)
- Carbon length: 47.23" (1200 mm)
- Patient weight capacity in normal orientation: 353 lbs when complying with the conditions that apply for the operating table
- Made of carbon board; stainless steel hook/couplers
- 360° Radiolucent
- Replacement pad: 1851580

Tabletop Segment Carbon 1200 H V · Part # 1850989

### Lightweight Transfer Board

- Positioning board used for pre- and post-operative lithotomy positioning. Attaches to TruSystem hook/coupling point system. Connects to the Medium (M) coupler - Refer to Compatibility Reference Chart in Index.
- Dimensions (LxWxH): 40.2" x 22" x 3.4" (1020 mm x 560 mm x 86 mm)
- Weight capacity: 297.6 lbs (135 kg) when complying with the conditions that apply for the operating table
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad: 1783522

Lightweight Transfer Board · Part # 2012543

### Boot Stirrups

- Patient weight capacity: Standard - 350 lbs; Elite - 500 lbs
- Lithotomy range: +84° to -33° / Abduction range: +25° to -9°
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad option: F-AMA6250.6S

Requires: (2) Rail Clamp, Simple, 20-2001006 or (2) Easy Lock, Blade Clamp, 111426

Optional: Stirrup Cart, F-30015

Standard Stirrups (pair) · Part # 110075

Elite Stirrup (pair) · Part # F-LH500
**Boot Stirrups, Heavy Duty**

- Patient weight capacity: 720 lbs
- Lithotomy range: +84° to -33° / Abduction range: +25° to -9°
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Requires: (2) Rail Clamp, Simple, 20-2001006 or (2) Easy Lock, Blade Clamp, 111426

**Foam Well-Leg Holder**

Supports non-operative leg.
- Radiolucent
- Requires: Easy Lock Socket Clamp, 111839

**Legholder, Goepel**

Adjustable lower leg support with Velcro safety strap.
- Dimensions (LxWxH): 29.97" x 14.76" x 7.87" (760 mm x 375 mm x 200 mm)
- Height adjustment range: 11.81" (300 mm)
- Weight capacity: up to 55.11 lbs (25 kg) please refer to user manual for more details
- Load-bearing structure made of stainless steel
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

**Pediatric Legholder, Goepel**

Adjustable lower leg support with Velcro safety strap. Connects to siderail via Easy Lock Socket Clamp (111839).
- Dimensions (LxWxH): 20.47" x 14.17" x 3.74" (520 mm x 360 mm x 95 mm)
- Height adjustment range: 7.87" (200 mm)
- Weight capacity: up to 33.07 lbs (15 kg) please refer to user manual for more details
- Load-bearing structure made of stainless steel
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

---

Optional: Stirrup Cart, F-30015

Heavy Duty Stirrups (pair) - Part # 111950

Requires: Easy Lock Socket Clamp, 111839

Foam Well-Leg Holder - Part # H-009-00-120

Leg Holder GOEPEL - Part # 4544736

Leg Holder Goepel for Children - Part # 4544789
Arm Supports

Armboard Snaplock Trigger

Radiolucent armboard, one handed operation, quickly connects and releases from siderail with release of the trigger lock.
- Patient weight capacity: 400 lbs
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad options: 2” pad, 20-2001028; 3” Pad, 20-2001003; 4.25” pad, 111895 (standard); Clamshell 2” Armboard Pad, O-AMA96X2.0S

Associated parts: Armboard Snaplock, Trigger (no pad), 20-2001002

Armboard Snaplock Trigger, with Pad (4.25”) - Part # 111893

Multi-Task Armboard

Adjustable arm support with Velcro safety strap. Lockable ball socket combined with 6” of horizontal travel permits a wide range of positioning flexibility. Connects to siderail via Easy Lock Socket Clamp (111839).
- Weight capacity: 500 lbs (227 kg)
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad option: Clamshell 2” Armboard Pad, O-AMA96X2.0S

Requires: Easy Lock Socket Clamp, 111839

Multi-Task Armboard - Part # 112012
Carbon Fiber Armboard

Radiolucent armboard slides between tabletop and pad and is held in place by the weight of the patient. Consists of base plate and arm support, rotatable 180°. Folds compactly for storage.

- Base plate dimensions (LxW): 7.5” x 24” (190 mm x 610 mm)
- Arm support dimensions (LxW): 5.9” x 22.8” (150 mm x 580 mm)
- Pad height: 2.9” (75 mm)
- Weight capacity: 29.98 lbs (13.6 kg)
- Made of carbon fiber
- Radiolucent
- Compatible with TruSystem 7000, 7000dv, 7500 Surgical Tabletops

Requires: Velcro Strap, 1333448

Carbon Fiber Armboard V · Part # 1895203

Adjustable Arm Support

Attaches to siderail via integral clamp. Central knob allows for easy positioning and flexible maneuverability.

- Length: 28.4” (721.36 mm)
- Radius of movement: 22.5” (460 mm)
- Maximum load capacity: 22 lbs (4.3 kg)
- Load-bearing structure made of stainless steel
- Radiolucent
- Compatible with the 7000, 7000dv and 7500 Surgical Tabletops

Requires: Velcro Strap, 1333448

Fisso Armboard · Part # 2068136

Carbon Fiber Rectangular Hand/Arm Table

Sturdy, lightweight extension table for hand/arm procedures, radiolucent. Attaches to siderails of table via socket clamp to 2 round 5/8” posts. Can be used with or without removable leg support. Pad sold separately.

- Dimensions (LxW): 15” x 30 3/8” (381 mm x 771.53 mm)
- Weight capacity: 400 lbs (181 kg)
- Height adjustable
- Made of carbon fiber
- Radiolucent
- Compatible with TruSystem 7000, 7000dv and 7500 Surgical Tables

Requires:
- (2) Easy Lock Socket Clamps, 111839
- 1” Pad Rectangular Table (F-30300-Pad-1) or 2” Pad Rectangular Table (F-30300-Pad)

Carbon Fiber Rectangular Hand/Arm Table · Part # F-30450-C

Carbon Fiber Hourglass Hand / Arm Table

Full-sized carbon fiber hand/arm table that attaches to siderails via integral clamps. Includes integral leg. Pads sold separately.

- Dimensions (LxW): 34” x 16” (863.6 mm x 406.4 mm)
- Weight capacity: 400 lbs (181 kg)
- Made of carbon fiber
- Radiolucent
- Compatible with TruSystem 7000, 7000dv and 7500 Surgical Tables

Requires:
- Easy Lock Socket Clamp, 111839
- 1” Pad Set for 30650-C (F-30502-1-B) or 2” Pad Set for 30650-C (F-30502-B)

Carbon Fiber Hourglass Hand / Arm Table · Part # F-30650-C
Arm Shield

Shield is slid between tabletop and tabletop pad and held in place by the weight of the patient. Not suited for tables with mushroom fasteners. Slides under back section. Pad to protect arms and keep them from falling off table. The radiolucent arm shield provides a comfortable, safe platform for surgical staff to lean on without harming patient or dislodging IVs. The soft flexible pad provides comfortable cushion reducing risk of pressure related injury.

• Dimensions (WxH): 15.75” x 7” (400 mm x 180 mm)
• Made of plexiglass
• Radiolucent
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
• Manufactured by Allen Amatech

Arm Shield - Part # 1939050

Carbon Components & Accessories

Positioning & Single-use Accessories
Easy Lock®, Socket Clamp

Attach the clamp anywhere on the operating table rail. Accepts any round post up to 11/16” or 1.8 cm diameter. Quick and easy pull-to-release lever, and wheel for accessory angle adjustments.

- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Easy Lock Socket, US Rail - Part # 111839

Easy Lock® Blade Clamp

Attach clamp anywhere on operating table rail. Accepts all 1” x 1/4” (2.5 cm x 0.6 cm) accessories with flat mounting blades. Quick and easy pull-to-release lever.

- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Easy Lock, Blade Clamp - Part # 111426

Siderails, Clamps & Trays
Rail Clamp, Simple
Secures all accessories with flat mounted blades anywhere along the table siderail. Attaches at operating table siderail ends or notches. Accessories can be mounted either vertically or horizontally. Accepts 1" x 1/4" (2.5 cm x 0.6 cm) flat accessories. 
• Weight capacity: 720 lbs
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Slotted Rail Clamp
Secures all accessories with flat mounted blades anywhere along the table siderail. Accepts 1" x 1/4" (2.5 cm x 0.6 cm) flat blade accessories
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Radial Setting Clamp
Clamp provides the mounting and installation of the clamp and device all at the same time. The clamp fits safely and securely to the siderail and also accepts mounting rods with diameters 0.5" - 0.7 in (15 mm - 18 mm).
• 360° adjustment
• Made of stainless steel
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Y-Clamp Radial Setting
Dual clamping design provides device mounting and separate height adjustment and rotation. Once the clamp is mounted onto the rail, then the accessory or arm can be installed. Once the desired height and point of rotation are determined, then the fixing screw is tightened resulting in a lock that will not lose its position. 360° adjustment; suitable for rods 0.5" - 0.7" (14 mm - 18 mm) in diameter.
• Made of stainless steel
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Y-Clamp Radial Setting · Part # 4544700
Joint Plate Carbon Clamp, pair

Can be used with Joint Plate Carbon 520 (1266934) or Joint Plate Carbon 370 (1279867) to offer flexibility of siderails on carbon components.

• Made of stainless steel
• Compatible with TruSystem 7000, 7000dV, 7500 Surgical Tables, Carbon Components, Carbon 600, Carbon 1200, and Carbon Freefloat Tabletops

Requires: (1) Siderail, 4500166

Clamp Pair for Joint Plate Carbon · Part # 1272324

Siderail Extension

Attaches to siderail via integral clamp for an additional length.

• Lengths: 8" (200 mm) and 20" (520 mm)
• Made of stainless steel
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Requires: (1) Siderail, 4500166

Siderail Extension 160 · Part # 1345696

Siderail Extension U · Part # 4501001

Siderail

For extending length or adding siderail.

• Length: 20" (520 mm)
• Dimensions: 1.12 in x 0.37 in (28.6 mm x 9.5 mm)
• Made of stainless steel
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Requires: (1) Siderail, 4500166

Siderail U · Part # 4500166

Euro Siderail

For attaching Siemens interface controller with hybrid tabletop or connection between siderails of operating table tops. stainless steel

• Length: 20" (520 mm)
• Dimensions: 0.89 in x 0.39 in (25 mm x 10 mm)
• Made of stainless steel
• Compatible with TruSystem 7500 Surgical Tables

Requires: (1) Siderail, 4500166

Euro Siderail · Part # 4544166
## Siderail Long, Euro

- Made of stainless steel
- Compatible with old generation TruSystem 7500 Surgical Tables (not compatible with hook coupler tables)

Siderail Long, Euro · Part # 4544536

## Extension Tray

Slides on to the end of siderails and attaches via integral clamps. Commonly used at head or foot section.

- Dimensions (L x W): 39.3” x 22” (100 mm x 560 mm)
- Compatible with Carbon Floatline Tabletop

Extension Tray · Part # 1814876

Siderail Long, Euro · Part # 4544536

Carbon Components & Accessories

TruSystem® Tabletop Segment Carbon 600
Attaches to TruSystem hook/coupling point system. Connects to the Large (L) coupler - Refer to Compatibility Reference Chart in Index.
- Dimensions (LxWxH): 27.2” x 24.4” x 3.5” (690 mm x 620 mm x 90 mm)
- Length from coupling point to end of table top: 19” (480 mm)
- Patient weight capacity: 352 lbs (160 kg) when complying with the conditions that apply for the operating table
- Made of carbon fiber, coupling point made of stainless steel
- 360° Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad: 1770133

Tabletop Segment Carbon 600 U H · Part # 1739992

TruSystem® Tabletop Segment Carbon 1200
Attaches to the TruSystem hook/coupling point system for 360° radioluence. Connects to Large (L) coupler - Refer to Compatibility Reference Chart in Index. Pad included.
- Dimensions (LxWxH): 51.2” x 24.4” x 3.6” (1300 mm x 620 mm x 90 mm)
- Carbon length: 47.2” (1200 mm)
- Patient weight capacity in normal orientation: 353 lbs when complying with the conditions that apply for the operating table
- Made of carbon board; stainless steel hook/couplers
- 360° Radiolucent
- Replacement pad: 1851580

Tabletop Segment Carbon 1200 H V · Part # 1850989
Joint Plate Carbon with Clamps, Pair

Used with Joint Plate Carbon Clamp, pair (12722324) to offer flexibility of siderails on carbon components.

- Dimensions (LxWxH): Joint Plate Carbon 370 - 8” x 16” x 0.2” (200 mm x 420 mm x 6 mm); Joint Plate Carbon 520 - 8” x 22” x 0.2” (200 mm x 570 mm x 6 mm)
- Made of carbon fiber
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Requires: (1) Joint Plate Carbon Clamp, pair, 1272324

Joint Plate Carbon 370 · Part # 1279867
Joint Plate Carbon 520 · Part # 1266934 (pictured)
Clamp Pair for Joint Plate Carbon · Part # 1272324

Carbon Fiber Armboard

Armboard slides between tabletop and tabletop pad and is held in place by the weight of the patient. Consists of base plate and arm support, rotatable 180°.

- Base plate dimensions (LxW): 7.5” x 24” (190 mm x 610 mm)
- Arm support dimensions (LxW): 5.9” x 22.8” (150 mm x 580 mm)
- Pad height: 2.9” (75 mm)
- Weight capacity: 29.98 lbs (13.6 kg)
- Made of carbon fiber
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Carbon Fiber Armboard V · Part # 1895203

Radiolucent Head Section, Wide

Wide, radiolucent head section that is compatible with various imaging adapters.

- Dimensions (LxW): 8” x 21” (200 mm x 530 mm)
- Made of carbon fiber
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pads: 111269

Radiolucent Head Section X-ray Wide · Part # 1297207

Radiolucent Skull Clamp

Radiolucent Cranial Skull Clamp with 3-point fixation for head support. Used for neuro/spinal surgeries.

- Dimensions (LxWxH): 12” - 16” x 5” x 14”
- Made of radiolucent material
- Radiolucent
- MRI conditional
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Manufactured by Pro Med Instruments GmbH

Skull Clamp is part of an interchangeable system. Can be used with Radiolucent Swivel Adapter (1317786) or Interface Skull Clamp LP (Biopsy Arm) (1835762). For MRI compatibility, must be used with DORO LUCENT® Parallelogram Adapter, manufactured and sold by DORO.

Skull Clamp X-ray · Part # 1317569
Radiolucent Swivel Adapter
Attaches Radiolucent Skull Clamp (1317569) to Radiolucent Retainer (1345749) or as a connection piece between Interface Skull Clamp AL (1866513) and Skull Clamp (1218968).
• Made of carbon fiber
• Radiolucent
• MRI conditional
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Radiolucent Adapters, Wide
Attaches to Carbon 600, Carbon FloatLine or Carbon Spine Tabletops via the carbon coupling point connectors (included). These wide adapters allow attachment of head positioning devices and accessories.
• Dimensions (LxW): 21" x 4" (550 mm x 100 mm); Double-Joint: 21" x 4" (550 mm x 100 mm); Triple Joint: 21" x 4" (550 mm x 100 mm)
• Made of carbon fiber
• Radiolucent: Yes (X-ray, CT)
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Radiolucent Adapters, Narrow
Attaches to SQ14 X-TRA UT (1581502) tabletop. This narrow adapter allows for attachment of head positioning devices and accessories.
• Dimensions (LxW): 9" x 15" (250 mm x 400 mm); Double-Joint: 15" x 15" (400 mm x 400 mm); Triple Joint: 21" x 15" (550 mm x 400 mm)
• Made of carbon fiber
• Radiolucent
• MRI conditional

Radiolucent Coupling Piece Low
Used for the lower head position with Radiolucent Skull Clamp (1317569).
• Made of carbon fiber
• Radiolucent
• MRI conditional
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Radiolucent Swivel Adapter · Part # 1317786

Radiolucent Adapters, Wide · Part # 1312733
Adapter X-ray Wide · Part # 1312733

Adapter X-ray Narrow · Part # 1297206
Adapter X-ray Double Joint Narrow · Part # 1312734 (pictured)
Adapter X-ray 3-Joint Narrow · Part # 1430023

Radiolucent Coupling Piece X-ray Low · Part # 1368880
Requires: SQ14 X-tra UT, 1581502

Radiolucent Coupling Piece X-ray Low · Part # 1368880

Radiolucent Swivel Adapter · Part # 1317786
Attaches Radiolucent Skull Clamp (1317569) to Radiolucent Retainer (1345749) or as a connection piece between Interface Skull Clamp AL (1866513) and Skull Clamp (1218968).
• Made of carbon fiber
• Radiolucent: Yes (X-ray, CT); No (MRI)
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Radiolucent Swivel Adapter · Part # 1317786
Radiolucent Retainer

Attaches to all Narrow and Wide Radiolucent Adapters and Radiolucent Swivel Adapter (1317786).
- Made of carbon fiber
- Radiolucent
- MRI conditional
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Retainer X-ray · Part # 1345749

Interface Skull Clamp (Biopsy Arm) LP

A connection piece between Basic Unit Neuro (1218970), Skull Clamp Adapter (1218969) and Radiolucent Skull Clamp (1317569); connection of a biopsy arm possible.
- Radiolucent
- MRI conditional
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Manufactured by Pro Med Instruments GmbH

Interface Skull Clamp (Biopsy Arm) LP · Part # 1835762

Interface Skull Clamp AL (DBS Adapter) LP

A connection piece between the Radiolucent Swivel Adapter (1317786) and the Skull Clamp (1218968); connection of a DBS adapter possible.
- Radiolucent
- MRI conditional
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Manufactured by Pro Med Instruments GmbH

Interface Skull Clamp AL (DBS Adapter) LP · Part # 1866513

Radiolucent Horseshoe Headrest

Radiolucent, horseshoe shaped headrest; attaches to all radiolucent adapters.
- Adjustment range: 45°
- Dimensions (LxWxH): 8" x 10" x 4" (200 mm x 250 mm x 100 mm)
- Made of carbon fiber
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Headrest X-ray · Part # 1300662
Extension Joint Strut X-ray, Pair
Attaches to Trumpf Medical coupling point system and extension adapters.
• Made of carbon fiber
• For FX New Generation
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Extension Joint Strut X-ray, Pair · Part # 1574735

Adapter Extension Strut X-ray
Attaches to the Radiolucent Extension Strut, Pair (1574735); for mounting the Adapter Spindle Traction Mechanism (1593159).
• Made of carbon fiber
• For FX New Generation
• For use with Extension Unit
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Adapter Extension Strut X-ray · Part # 1593158

Free Float Carbon Control Unit
Control unit allows a free-floating motion in the longitudinal and transverse movement of tabletop Carbon FloatLine; lateral tilt, Trendelenburg, height adjustment; two memory functions; can be attached to the length of the tabletop by an Easy-Click system.
• Compatible with Carbon Floatline Tabletop

Free Float Carbon Control Unit · Part # 1808992
TrenGuard™ Procedure Pack, Single-use

Single-use procedure pack for use with TrenGuard Patient Support Frame.
• Each pack includes (1) Head Stabilizer, (1) Cervical Neck Pad, (2) Lateral Stabilizing Pillows
• Patient weight capacity: TrenGuard™ 450 accommodates up to 450 lbs in 40° of Trendelenburg; TrenGuard™ 600 accommodates high BMI patients up to 550 lbs in 40° of Trendelenburg
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Requires: TrenGuard Patient Support Frame, 111902

Positioning & Single-use Accessories

TrenGuard™ Package

Reverse Trendelenburg restraint system.
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Includes:
(1) TrenGuard Frame, 111902
(2) Slotted Rail Clamps, 111408
(1) Demo Case, 111409
(3) 450 Procedure Packs, 111421 (single-use)

TrenGuard Package - Part # 111936
TrenGuard 450 Demo Case - Part # 111409
TrenGuard™ Patient Support Frame

Attaches via clamp to the siderails of the back section of the operating table.
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Requires: (2) slotted rail clamps, 111408

TrenGuard Patient Support Frame · Part # 111902

Integrated TrenGuard™ Support Wedge, Single-use

For use with ultra high-BMI patients and those who may not present with a cervical concavity.
- 1 case contains 12 packs
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Requires: TrenGuard Patient Support Frame, 111902

TrenGuard Support Wedge - Integrated - Single-use · Part # 111905

TrenGuard Support Wedge - Integrated - Single-use, Case · Part # 111906

ArmGuard™ Arm Protector Sled Kit

Adjusts to various arm lengths.
- Procedure Packs are single-use
- Safely secures the proportional arm weight of patients up to 750 lbs
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

ArmGuard Arm Protector Sled Kit · Part # 111413

ArmGuard, Arm Protector Procedure Pack, each · Part # 111422

ArmGuard, Arm Protector Procedure Packs, case of 12 · Part # 111406

ArmGuard™ Bariatric Width Extender Procedure Pack, Single-use

Adds 4" of width and keeps the patients arms at the same level as the table pad.
- Procedure Pack contains 1 item
- Case contains 12 Procedure Packs
- Safely secures the proportional arm weight of patients up to 750 lbs
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

ArmGuard Bariatric Width Extender Procedure Packs, each · Part # 111423

ArmGuard Bariatric Width Extender Procedure Packs, case · Part # 111407
Bariatric Security Strap, with pad

Straps are adjustable up to 80”.
• Pad dimensions (L x W): 30” x 12”
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Bariatric Security Strap, with Pad - Part # 111809

Medium Security Strap, without hooks

Reusable patient safety belt, attaches to the rails via straps.
• Strap is adjustable from 18” to 45”
• Pad dimension (LxWxH): 18” x 5” x 1/2” (pad optional)
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Medium Security Strap, without hooks, with pad - Part # 111930 (pictured)

Medium Security Strap, without Hooks - Part # 2068137

Patient Security Strap Hook

For use with hookless patient security straps.
• Sold individually

Foam Arm Supports, case - Part # 111931

Legholder Pad, Single-use

Single-use replacement pad for Deluxe Arthroscopic Legholder System (F-10015).

Legholder Pad - Part # R-S4133-V
**Long Patient Transfer Board**

Lightweight, roller-free board for patient transfer.
- Weight capacity: 500 lbs
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

**Optional:** Narrow board Replacement Cap (F-83015) or Wide Board Replacement Cap, F-83016

- Long, Wide Patient Transfer Board 71.5" x 20.5" - Part # F-83000
- Long, Narrow Patient Transfer Board 71.5" x 16.5" - Part # F-83005

**Facemask, Single-use**

Secures and supports head, chin and face with padded support while using the Shoulder Chair (2009875).
- Case contains 12 packs
- Radiolucent

Disposable Facemask, case - Part # 111608

**Profile Board**

Lightweight, roller-free board for patient transfer.
- Weight capacity: 500 lbs
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

**Optional:** Narrow board Replacement Cap (F-83015) or Wide Board Replacement Cap, F-83016

- Short, Wide Patient Transfer Board 32" x 20.5" - Part # F-83003
- Short, Narrow Patient Transfer Board 40" x 16.5" - Part # F-83001

**Head and Chin Strap, Single-use**

Pair of straps to secure and support the head and chin while using the Shoulder Chair (2009875).
- Single-use
- Case contains 12 packs
- Radiolucent

Disposable Head and Chin Strap, case - Part # 111607

**Short Patient Transfer Board**

Lightweight, roller-free board for patient transfer.
- Weight capacity: 500 lbs
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

**Optional:** Narrow board Replacement Cap (F-83015) or Wide Board Replacement Cap, F-83016

- Short, Wide Patient Transfer Board 32" x 20.5" - Part # F-83003
- Short, Narrow Patient Transfer Board 40" x 16.5" - Part # F-83001

**Facemask, Single-use**

Secures and supports head, chin and face with padded support while using the Shoulder Chair (2009875).
- Case contains 12 packs
- Radiolucent

Disposable Facemask, case - Part # 111608

**Profile Board**

Lightweight, roller-free board for patient transfer.
- Weight capacity: 500 lbs
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

**Optional:** Narrow board Replacement Cap (F-83015) or Wide Board Replacement Cap, F-83016

- Short, Wide Patient Transfer Board 32" x 20.5" - Part # F-83003
- Short, Narrow Patient Transfer Board 40" x 16.5" - Part # F-83001

**Profile Board**

Lightweight, roller-free board for patient transfer.
- Weight capacity: 500 lbs
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

- Short, Wide Patient Transfer Board 32" x 20.5" - Part # F-83003
- Short, Narrow Patient Transfer Board 40" x 16.5" - Part # F-83001
Foam Head Block, Single-use
For positioning patient's head in prone position with the Carbon Spine Tabletop.
- 6 blocks per package, 6 packages per case

Foam Head Block, case · Part # 2016441

Ultra Comfort Covers, Single-use
For single-use with the Carbon Spine Tabletop. Available in small, medium and large sizes.
- 6 per case

Ultra Comfort Covers, Small · Part # 2066017
Ultra Comfort Covers, Medium · Part # 2016446
Ultra Comfort Covers, Large · Part # 2016448

Foam Arm Supports, Single-use
For single-use with the Carbon Spine Tabletop.
- 6 per case

Foam Arm Supports, case · Part # 2066016

Bag Uro Catcher, Single-use
Requires: Band, Uro Catcher, 20-2001007

Bag Uro Catcher · Part # 20-2001008
Cable Remote Control for TruSystem® 7000 Table

Cable remote control for the TruSystem 7000dV mobile surgical table in combination with the da Vinci Xi® System to activate Table Motion.

- Compatible with TruSystem 7000 Surgical Tables

Cable Remote Control TS7000 - Part # 1767067

Cable Remote Control for TruSystem® 7000dV Table

Cable remote control for the TruSystem 7000dV mobile surgical table in combination with the da Vinci Xi® System to activate Integrated Table Motion.

- Compatible with TruSystem 7000dV Surgical Tables

Cable Remote Control TS7000 (dV) - Part # 1798326
Wireless Remote for New Generation TruSystem® 7500 Table Columns

For new generation TruSystem 7500 columns in combination with our partners Brainlab/Mobius, Philips Allura, Toshiba, Shimadzu, and Siemens ARTIS. Software versions 6 and higher.

- Compatible with TruSystem 7500 Surgical Tables

Refer to Remote Control Wireless TS7500, First Generation (1633967) for software versions 5 and lower.

Requires: Charging Unit Mobile TS7500 (1557243) or Charging Unit Mounted T DC TS7500 (1537208)

Remote Control Wireless TS7500 · Part # 2003863

TruSystem® 7500 Table SensorLine Package

Upgrade package for additional functionality including individual patient transfer, individual height adjustment for transfer, and collision prevention.

- Compatible with TruSystem 7500 Surgical Tables

Includes: (1) SensorLine Remote Control, (1) Mobile Charging Unit, (1) User Manual

TruSystem 7500 SensorLine · Part # 1947993

TruSystem® 7500 Table SensorLine Premium Package

Upgrade package for additional functionality including individual patient transfer, individual height adjustment for transfer, integral overload protection, collision prevention & detection, extension of the Trendelenburg-tilt ratios for minimally invasive surgical interventions, key lock for table handling, isocentric tilt for operating tabletop Carbon FloatLine, and faster Trendelenburg for optimal emergency treatment in the OR.

- Compatible with TruSystem 7500 Surgical Tables

Includes: (1) SensorLine Remote Control, (1) Mobile Charging Unit, (1) User Manual

TruSystem 7500 SensorLine Premium · Part # 1997423

Free Float Carbon Control Unit

Control unit allows a free-floating motion in the longitudinal and transverse displacement of tabletop Carbon FloatLine; realization of lateral tilt, Trend., height adjustment; two memory functions; can be attached to the longitudinal side of the tabletop by an Easy-Click system.

- Compatible with Carbon Floatline Tabletop

Free Float Carbon Control Unit · Part # 1808992
Remote for Previous Generation 7500 Columns

1st Generation: For use with TruSystem 7500 columns with software version 5 or lower.
2nd Generation: For use with TruSystem 7500 columns with software version 6 or higher in combination with our partners Brainlab/Mobius, Philips Allura, Toshiba, Shimadzu, and Siemens ARTIS, and in combination with Siemens Combi Suite.

- Compatible with TruSystem 7500 Surgical Tables

  Requires: Charging Unit Mobile TS7500 (1557243) or Charging Unit Mounted T DC TS7500 (1537208)

  1st Generation TS7500 Cable Remote Control · Part # 1633968
  1st Generation TS7500 Remote Control Wireless · Part # 1633967
  2nd Generation TS7500 Cable Remote Control · Part # 2003862

Charging Unit, Mobile, TruSystem® 7500 Table Remote

For wireless and IR remote control of the TruSystem 7500.

- Compatible with TruSystem 7500 Surgical Tables

  Requires: Charging Cable, 1836117

  Charging Unit Mobile TruSystem 7500 · Part # 1557243
  Charging Unit Mounted T DC TS7500 · Part # 1537208

Power Cord, Mobile Tables

Charging cord for mobile tables.

- Length: 16’ (5 m)
- Compatible with TruSystem 7000 and 7000dV Surgical Tables

  Power Cord, TS7000 · Part # 1873017

Cable Connection TruSystem® 7000dV Table

Wired connection back-up between da Vinci Xi System and TruSystem 7000dV Table.

- Compatible with TruSystem 7000dV Surgical Tables

  Cable Connection TruSystem 7000 dV · Part # 1816914
**Foot Pedal**

Plugs into column to control table functions.
- Made of aluminum
- Compatible with TruSystem 7500 Surgical Tables

- Foot Pedal HKN (height, Trendelenburg/reverse Trendelenburg and tilt) - Part # 1258883
- Foot Pedal HBN (height, Trendelenburg / anti-Trendelenburg and leg section) - Part # 1258884
- Foot Pedal HRN (height, Trendelenburg/ anti-Trendelenburg and back section) - Part # 1258885
- Foot Pedal HLO (height, longitudinal and transversal shift) - Part # 1258886
- Foot Pedal HLN (height, Trendelenburg/ anti-Trendelenburg and longitudinal shift) - Part # 1258887
- Foot Pedal LBR (longitudinal shift, leg section and back section) - Part # 1258888
- Foot Pedal HBK (height, leg section and tilt) - Part # 1364476
- Foot Pedal HRK (height, back section and tilt) - Part # 1364477

**Holder Remote Control**

To attach to siderails; for mounting remote controls.
- Made of stainless steel
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Holder Remote Control - Part # 1351241
Shuttles & Carts

Shuttle for TruSystem® 7500 Table Systems

To transport TruSystem 7500 operating tabletops and/or columns.
- Made of aluminum
- Maximum load: 794 lbs (360 kg)
- Compatible with TruSystem 7500

Shuttle 1.6 360 (no Adjustment) · Part # 1418348
Shuttle 2.6 360 (Trend/anti-Trend Adjustment) · Part # 1418349
Shuttle 3.6 360 (Trend/anti-Trend & Height Adjustment) · Part # 1489491

Power Shuttle for TruSystem® 7500 Table Systems

Motorized shuttle with sensor controlled steering handles to transport TruSystem 7500 operating tabletops and/or columns.
- Made of aluminum
- Maximum load: 793.6 lbs (360 kg)
- Compatible with TruSystem 7500

Requires: Battery Power Shuttle (1774606); Charging Unit Power Shuttle (1774608)

Power Shuttle (H) · Part # 1774603
Battery Power Shuttle · Part # 1774606
Charging Unit Power Shuttle · Part # 1774608
Component Cart

Mobile cart designed for transport and storage. Provides two sides of hanging space for Trumpf Medical components.
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Component Cart - Part # 2069425

Component Wall Mount, pair

Used for storage of one hook/coupling point component.

Component Wall Mount, pair - Part # 2023703

Accessory Cart

Mobile cart includes six rails for hanging accessories and a deep bin at the base for additional storage. Optional accessory hooks also available. The weighted base is tip resistant and the casters can be locked.

Optional Accessories: Single Hook for Accessory Cart (F-30012); Double Hook for Accessory Cart (F-30013); Accessory Hook for Accessory Cart (F-30011).

Accessory Cart - Part # F-30010

Accessory Hook for Accessory Cart - Part # F-30011

Single Hook for Accessory Cart - Part # F-30012

Double Hook for Accessory Cart - Part # F-30013

Stirrup Cart

Transport of any stirrups or legholders. Compact design with deep storage base for clamps and pads. Two different-sized hooks to hold rod sizes: 3/4" and 1".

Stirrup Cart - Part # F-30015
**Easy Rack**
Mounts to the wall for storing stirrups, armboards, clamps, straps and other accessories. Unique key slots accept 1/4" x 1" flat and 5/8" round mounting posts. Wall fasteners not included.

Easy Rack - Part # O-MR2

**Shoulder Chair Dolly**
For storage and transport of Shoulder Chair H, Coupler Mounted (2009875).
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Shoulder Chair Dolly - Part # 111606

**kombiTROLL Extension Trolley**
For positioning and transporting extension accessories.
- Dimensions (L x W x H): 40" x 30" x 67" (1020 mm x 750 mm x 1700 mm)
- Made of aluminum
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

kombiTROLL Extension Trolley - Part # 1664865

**Docking Trolley Extension Unit for TruSystem® 7000 Tables**
For transporting, storing, docking and undocking of the Extension Unit to TruSystem surgical tables.
- Made of stainless steel
- For FX New Generation

Docking Trolley Extension Unit TS7000 - Part # 1867129
Table Transport Handles

Attaches to siderails via integral clamp; ergonomic design enables safe transport of operating tables or an operating tabletop on a shuttle.

• Made of stainless steel
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Handles for Operating Tables · Part # 1321641

Cleaning Shuttle for TruSystem® 7500 Table Systems

For cleaning beneath the base plate of TruSystem 7500 mobile operating columns.

• Made of stainless steel
• Compatible with TruSystem 7500 Surgical Table - Mobile column only

Cleaning Shuttle 2.01 · Part # 1536993

Skull Clamp
Attaches to Skull Clamp Adapter (1218969) or Interface Skull Clamp AL (1866513) for stable and precise three-point skull fixation with skull pins.

- Made of aluminum
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Manufactured by Pro Med Instruments GmbH

Skull Clamp · Part # 1218968

Skull Clamp Adapter
Connection between Basic Unit Neuro (1218970) and desired skull clamp or headrest.

- Made of aluminum
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Manufactured by Pro Med Instruments GmbH

Skull Clamp Adapter · Part # 1218969
Basic Unit Neuro

For attaching various head components; simultaneous locking of longitudinal and vertical positions; used for prone and supine positioning of the patient.

- Made of cast aluminum
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Manufactured by Pro Med Instruments GmbH

Radiolucent Skull Clamp

Radiolucent Cranial Skull Clamp with 3-point fixation for head support. Used for neuro/spinal surgeries. Material is compatible with CT and MRI.

- Dimensions (LxWxH): 12” - 16” x 5” x 14”
- Made of radiolucent material
- Radiolucent
- MRI conditional
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Manufactured by Pro Med Instruments GmbH

Radiolucent Helmet

Fully radiolucent, attaches to various imaging adapters. Two straps ensure safe positioning and lateral support for the head. Adjustable to various head sizes ranging from pediatric to adults.

- Made of a hard plastic, Polyoxymethylen (POM)
- Radiolucent

Radiolucent Skull Clamp is part of an interchangeable system. Can be used with Radiolucent Swivel Adapter (1317786) or Interface Skull Clamp LP (Biopsy Arm) (1835762). For MRI compatibility, must be used with DORO LUCENT® Parallelogram Adapter, manufactured and sold by DORO.

Skull Clamp X-ray · Part # 1317569

Horseshoe Headrest

Horseshoe shaped headrest designed for prone or supine positioning for adult-sized patients. Features extension bar for skull traction and durable comfort gel pads. Connects to Swivel Adapter (1218969).

- Made of cast aluminum
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Radiolucent Helmet · Part # 1300663

Skull Clamp X-ray · Part # 1317569
Radiolucent Adapters, Wide

Attaches to Carbon 600, Carbon FloatLine or Carbon Spine Tabletops via the carbon coupling point connectors (included). These wide adapters allow attachment of head positioning devices and accessories.

- Dimensions (LxW): 21" x 4" (550 mm x 100 mm); Double-Joint: 21" x 4" (550 mm x 100 mm); Triple Joint: 21" x 4" (550 mm x 100 mm)
- Made of carbon fiber
- Radiolucent
- MRI conditional
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Adapter X-ray Wide · Part # 1313733
Adapter X-ray Double Joint Wide · Part # 1313735 (pictured)
Adapter X-ray 3-Joint Wide · Part # 1430024

Radiolucent Adapters, Narrow

Attaches to SQ14 X-TRA UT (1581502) tabletop. This narrow adapter allows for attachment of head positioning devices and accessories.

- Dimensions (LxW): 9" x 15" (250 mm x 400 mm); Double-Joint: 15" x 15" (400 mm x 400 mm); Triple Joint: 21" x 15" (550 mm x 400 mm)
- Made of carbon fiber
- Radiolucent
- Compatible with TruSystem 7500 Surgical Tables

Requires: SQ14 X-tra UT, 1581502

Adapter X-ray Narrow · Part # 1297206
Adapter X-ray Double Joint Narrow · Part # 1312734 (pictured)
Adapter X-ray 3-Joint Narrow · Part # 1430023

Radiolucent Swivel Adapter

Attaches Radiolucent Skull Clamp (1317569) to Radiolucent Retainer (1345749) or as a connection piece between Interface Skull Clamp AL (1866513) and Skull Clamp (1218968).

- Made of carbon fiber
- Radiolucent: Yes (X-ray, CT); No (MRI)
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Radiolucent Swivel Adapter · Part # 1317786

Radiolucent Retainer

Attaches to all Narrow and Wide Radiolucent Adapters and Radiolucent Swivel Adapter (1317786).

- Made of carbon fiber
- Radiolucent
- MRI conditional
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Retainer X-ray · Part # 1345749
Radiolucent Head Section, Wide
Wide, radiolucent head section that is compatible with various imaging adapters.
- Dimensions (LxW): 8" x 21" (200 mm x 530 mm)
- Made of carbon fiber
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pads: 111269

Head Section X-ray Wide · Part # 1297207

Radiolucent Coupling Piece Low
Used for the lower head position with Radiolucent Skull Clamp (1317569).
- Made of carbon fiber
- Radiolucent
- MRI conditional
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Coupling Piece X-ray Low · Part # 1368880

Interface Skull Clamp (Biopsy Arm) LP
A connection piece between Basic Unit Neuro (1218970), Skull Clamp Adapter (1218969) and Radiolucent Skull Clamp (1317569); connection of a biopsy arm possible.
- Radiolucent
- MRI conditional
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Manufactured by Pro Med Instruments GmbH

Interface Skull Clamp (Biopsy Arm) LP · Part # 1835762

Interface Skull Clamp AL (DBS Adapter) LP
A connection piece between the Radiolucent Swivel Adapter (1317786) and the Skull Clamp (1218968); connection of a DBS adapter possible.
- Radiolucent
- MRI conditional
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Manufactured by Pro Med Instruments GmbH

Interface Skull Clamp AL (DBS Adapter) LP · Part # 1866513
Neuroadapter Carbon Wide

Attaches to the Carbon FloatLine and the Carbon X-TRA 7500 (1846397) and Carbon 600 (1739992).

• Made of stainless steel
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Neuroadapter Carbon Wide · Part # 1435067

Neuroadapter Carbon Narrow

Attaches to the SQ14 X-TRA UT (1581502) tabletop.

• Made of stainless steel
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Neuroadapter Carbon Narrow · Part # 1433543

Horseshoe Headrest, Two-Part

Attaches to connection holder via integral clamps; adjustable to head size.

• Dimensions (LxW): 7” x 7” (180 mm x 180 mm)
• Load-bearing structure made of stainless steel
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Horseshoe Headrest, Two-Part · Part # 4549732

Radiolucent Horseshoe Headrest

Radiolucent, horseshoe shaped headrest; attaches to all radiolucent adapters.

• Adjustment range: 45°
• Dimensions (LxWxH): 8” x 10” x 4” (200 mm x 250 mm x 100 mm)
• Made of carbon fiber
• Radiolucent
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Radiolucent Horseshoe Headrest · Part # 1300662
Headrest, Narrow

Designed for Ophthalmology and ENT procedures. Headrest attaches to Connection Holder with Joint Short (4544733) as well as Retainer for Headrests Vario (1300079). Integral clamp.

- Dimensions (LxW): 10" x 8" (250 mm x 200 mm)
- Load-bearing structure made of stainless steel
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Requires: Connection Holder with Joint Short, 4544733 or Connection Holder with Joint, 4544729 and Joint Short, 4544733

Headrest Basic · Part # 4549730

Headrest Flat 20

Attaches to Retainer for Headrests Vario (1300079). Optimal for ENT and Ophthalmology procedures.

- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Requires: Retainer for Headrests Vario, 1300079

Headrest Flat 20 · Part # 1256701

Connection Holder with Joint Short

Attaches to Retainer for Headrests Vario (1300079).

- Siderail length: 7" (185 mm)
- Rotatable: 360°
- Tilt: ± 30°
- Made of stainless steel
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Requires: Connection Holder with Short Joint, 4544733 and Joint Short, 4544733

Connection Holder with Joint Short · Part # 4544733

Connection Holder with Joint · Part # 4544729 (pictured)

Crossbar Attachment

Used for attaching neurosurgical accessories.

- Made of stainless steel
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Requires: Easy Lock Socket Clamp, 111839

Crossbar Attachment · Part # 4544436
Retainer for Headrests Vario

Adjustable, attaches to Head Positioning Adapter U H (1739994).
- Pivot range: +/− 90°
- Made of stainless steel
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Requires: Head Positioning Adapter U H, 1739994

Retainer for Headrests Vario · Part # 1300079

Head Positioning Adapter U H

Attaches to siderails; best suited for adapting and connecting headrests and headrest accessories. Ideal for Neuro/Spine/ENT/Ophthalmologic head accessories.
- Dimensions (LxWxH): 5.1" x 24.4" x 6.3" (129.5 mm x 619.7 mm x 160 mm)
- Made of stainless steel
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Adapter for Head Positioning U H · Part # 1739994
Carbon Spine Tabletop Standard Positioning Package

One-part operating tabletop made of carbon fiber bars with electrically motorized adjustment of longitudinal shift and coupling point at the head end for attaching head positioning accessories.

- Patient weight capacity: 496 lbs (225 kg)
- X-ray area - Head side: 64.6” x 17” (1640 mm x 432 mm) (Fixed), 56.7” x 17” (1440 mm x 432 mm) (mobile)
- Longitudinal shift: 31.5” (800 mm) (fixed), 23.6” (600 mm) (mobile)
- Dimensions (LxW): 80.7” x 17” (2050 mm x 432 mm)

Includes: (1) Carbon Spine Tabletop, 2065423
(6) Supine Accessory Top 12”, 2066007
(6) Supine Accessory Top Pad 2”, 2066008
(1) Supine Filler Top 8”, 112069

Docking Trolley Extension Unit for TruSystem® 7000 Tables
For transporting, storing, docking and undocking of the Extension Unit to TruSystem surgical tables.
• Made of stainless steel
• Compatible with TruSystem 7000 Surgical Tables
Docking Trolley Extension Unit TS7000 · Part # 1867129

Extension Adapter for TruSystem® Tables
Adapter for extension accessories on TruSystem tabletops.
• Load-bearing structure made of carbon and stainless steel
• Replacement pad for TS7500: 1880217
• Compatible with TruSystem 7000 and 7500 Surgical Tables
Extension Adapter TS7000 · Part # 1850992
Extension Adapter - TS 7500 · Part # 1574666

Universal Support
Used to slide on Extension Adapters (without joints); connects Leg Sections, Transfer Leg Section (1876708), Counter Traction Posts and MIS Hip device to the OR table; fixed joints.
• Made of stainless steel
• Compatible with TruSystem 7000 Surgical Tables
Universal Support TS7000 · Part # 1876707

Supporting Pad, Universal
Supporting Pad, Universal B · Part # 1880217
Transfer Leg Section

Attaches to Universal Support (1876707).
  • Dimensions (LxWxH): 34.9" x 21.3" x 2.7" (886 mm x 542 mm x 68 mm)
  • For FX New Generation
  • Replacement pad: 1880219
  • Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
Transfer Leg Section · Part # 1876708

Counter Traction Post 150

• Diameter: 7" (180 mm)
• Length: 13.8" (350 mm)
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
• Replacement pad: 1612708

Counter Traction Post 150 · Part # 1612706

Counter Traction Post Radiolucent

To attach to supporting pad universal or supporting pad hip; 360° radiolucent.
  • Diameter: 7" (180 mm)
  • Length: 13.8" (350 mm)
  • Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Counter Traction Post X-ray · Part # 1574731

Angle Pad

Attaches to Trumpf Medical hook coupling points and used in combination with the Extension Adapter (1850992) to extend operating tabletop.
• Load-bearing structure made of stainless steel
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Angle Pad B · Part # 1886332
**Double Joint Strut, Pair**

Attaches to TruSystem hook/coupling point system and extension adapters.
- Made of stainless steel
- For FX New Generation
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Double Joint Strut, Pair · Part # 1574734

---

**Extension Strut**

Attaches to Double Joint Strut, pair (1574734) or Arthroscopy Positioning Device (454466) for mounting the Adapter Spindle Traction Mechanism (1593159).
- Length: Short - 19" (485 mm); Medium - 25" (635 mm); Long - 31" (795 mm)
- Load-bearing structure made of stainless steel
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

**Adapter Spindle Traction Mechanism**

Mounts the Spindle Traction Mechanism (Discontinued - 1881967).
- Made of stainless steel
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Adapter Spindle Traction Mechanism · Part # 1593159

---

**Spindle Traction Mechanism**

For positioning the patient's leg with the Extension Unit; allows free rotation of the leg with tilt joint to attach traction boots; ball joint adjustment allows various positions; adjustment of traction by handwheel; flexible adjustment to individual length of patient's legs.
- For use with Extension Unit
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Spindle Traction Mechanism · Part # 1881967
Traction Boot

Removable foot support with straps for adults.
• For FX New Generation
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Traction Boot · Part # 1574733

Traction Boot, Pediatric

Removable foot support with straps.
• For FX New Generation
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Traction Boot Children · Part # 1610541

Extension Joint Strut X-ray, Pair

Attaches to Trumpf Medical coupling point system and extension adapters.
• Made of carbon fiber
• For FX New Generation
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Extension Joint Strut X-ray, Pair · Part # 1574735

Adapter Extension Strut X-ray

Attaches to the Radiolucent Extension Strut, Pair (1574735); for mounting the Adapter Spindle Traction Mechanism (1593159).
• Made of carbon fiber
• For FX New Generation
• For use with Extension Unit
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Adapter Extension Strut X-ray · Part # 1593158
### Counter Traction Post for Tibia

- Made of stainless steel
- For use with Extension Unit
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

**Counter Traction Post for Tibia - Part # 1576815**

### Adapter Counter Traction Post Pivoted

Attaches to the Counter Traction Post for Tibia (1576815).
- Made of stainless steel
- For use with Extension Unit
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

**Adapter Counter Traction Post Pivoted - Part # 1576816**

### Counter Traction Post

Attaches to Counter Traction Post Adapters.
- Diameter: 3" (80 mm)
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

**Counter Traction Post (Length: 11") - Part # 1218835**

**Counter Traction Post (Length: 14") - Part # 4544449**

### Counter Traction Post 60

Attaches to Counter Traction Post Adapters.
- Diameter: 2" (60 mm)
- Length: 11" (270 mm)
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

**Counter Traction Post 60 - Part # 4544453**
Counter Traction Post, Femur

For lateral positioning; height adjustable via crank.
• Height adjustment: 5” (125 mm)
• Load-bearing structure made of stainless steel
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Weinberger Hand Traction Device

Attaches to Spindle Traction Mechanism (1881967) via integral clamp.
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Pediatric Legholder, Goepel

Adjustable lower leg support with Velcro safety strap.
• Dimensions (LxWxH): 20.47” x 14.17” x 3.74” (520 mm x 360 mm x 95 mm)
• Height adjustment range: 7.87” (200 mm)
• Weight capacity: up to 33.07 lbs (15 kg) please refer to user manual for more details
• Load-bearing structure made of stainless steel
• Radiolucent
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Requires: Easy Lock Socket Clamp, 111839

Leg Holder GOEPEL - Part # 4544789
Deluxe Arthroscopic Legholder System

Allows for rigid fixation and applies pressure both medially and laterally to the leg. One directional locking mechanism with hinged upper brace. Holds legs up to 35” (89 cm) in circumference.

- Patient weight capacity: 500 lbs
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad: R-S4133-V (single-use)

Requires: Easy Lock Socket Clamp, 111839; Legholder Pad, R-S4133-V

Arthroscopic Stress Post

Improves access to the medial compartment of the knee. Levering fulcrum with a 3” x 8” pad attached to a curved post.

- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Requires: Easy Lock Socket Clamp, 111839

Pad Riser for De Mayo

- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Pad Riser for De Mayo - Part # 111571

Meniscus Positioning Device

- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Requires: Easy Lock Socket Clamp, 111839

Meniscus Positioning Device - Part # 4544791
Wilson Spine Bridge

This accessory is to be set on top of tabletops; belts included to attach bridge to siderails; crank for height adjustment; adjustable flexion range.

- Radiolucent: Yes

* Requires: Pad Spine Bridge Wilson, set, 1852424

Spine Bridge Wilson V · Part #1790125

Pad Spine Bridge Wilson, set · Part #1852424

Transport Case for Wilson Frame and Pads · Part # 1337641

---

kombiTROLL™ Extension Trolley

For positioning and transporting extension accessories. Accessories sold separately.

- Dimensions (L x W x H): 40” x 30” x 67” (1020 mm x 750 mm x 1700 mm)
- Made of aluminum
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

kombiTROLL Extension Trolley · Part # 1664865

---

Headrest for Shoulder Operation

Radiolucent U-shaped helmet with soft pads and two Velcro straps for safe positioning and lateral fixation of the head; fits various head sizes ranging from child to adult; removable pads.

- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Headrest for Shoulder Operation · Part # 1296096

---

Pad Knee Flex

Angled pad to support patient’s legs during various surgical procedures, such as beach chair.

- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Pad Knee Flex · Part # 111552
**Fracture Draping System**

- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

  Fracture Draping System - Part # F-RDSTMS-A1

**Axilla Support**

Attaches to siderail via integral clamp.
- Load-bearing structure made of stainless steel
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

  Axilla Support - Part # 1218848

**Radial Setting Clamp**

- 360° adjustment
- Made of stainless steel
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

  Clamp Radial Setting - Part # 1218804

**Elbow Support**

Attaches to siderail via integral clamp. Swivel-mounted and adjustable to arm length.
- Load-bearing structure made of stainless steel
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

  Elbow Support - Part # 1218847

**Axilla Support**

Attaches to siderail via integral clamp. Swivel-mounted and adjustable to arm length.
- Load-bearing structure made of stainless steel
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

  Axilla Support - Part # 1218848

**Elbow Support**

Attaches to siderail via integral clamp. Swivel-mounted and adjustable to arm length.
- Load-bearing structure made of stainless steel
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

  Elbow Support - Part # 1218847
Siderail Extension U

Attaches to sidetall via integral clamp for additional length.
• Length: 20" (520 mm)
• Made of stainless steel
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Siderail Extension U - Part # 4501001

Rail Clamp for Extension Strut

To attach accessories on the extension struts within the fracture extension set.
• Made of stainless steel
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Rail Clamp for Extension Strut - Part # 1218833
Boot Stirrups

- Patient weight capacity: Standard - 350 lbs; Elite - 500 lbs
- Lithotomy range: +84° to -33° / Abduction range: +25° to -9°
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad option: F-AMA6250.6S

Requires: (2) Rail Clamp, Simple, 20-2001006 or (2) Easy Lock, Blade Clamp, 111426

Optional: Stirrup Cart, F-30015

Standard Stirrups (pair) · Part # 110075

Elite Stirrup (pair) · Part # F-LH500

Boot Stirrups, Heavy Duty

- Patient weight capacity: 720 lbs
- Lithotomy range: +84° to -33° / Abduction range: +25° to -9°
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad option: P-AMA12050.6S-A
- Manufactured by Allen Amatech

Requires: (2) Rail Clamp, Simple, 20-2001006 or (2) Easy Lock, Blade Clamp, 111426

Optional: Stirrup Cart, F-30015

Heavy Duty Stirrups (pair) · Part # 111950
**Legholder, Goepel**

Adjustable lower leg support with Velcro safety strap.

- Dimensions (LxWxH): 29.97” x 14.76” x 7.87” (760 mm x 375 mm x 200 mm)
- Height adjustment range: 11.81” (300 mm)
- Weight capacity: up to 55.11 lbs (25 kg) please refer to user manual for more details
- Load-bearing structure made of stainless steel
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

*Requires: Easy Lock Socket Clamp, 111839*

Leg Holder GOEPEL · Part # 4544736

---

**Pelvic Section Extension**

Attaches to the TruSystem hook/coupling point system for an extension of 12” (305 mm). Connects to Medium (L) coupler - Refer to Compatibility Reference Chart in Index.

- Dimensions (LxWxH): 12.05” x 23.66” x 3.94” (306 mm x 601 mm x 100 mm)
- Siderail dimensions (LxW): 1.1” x 0.4” (28.6 mm x 10 mm)
- Load capacity: 496 lbs (250 kg) when complying with the conditions that apply for the operating table
- Load-bearing structure made of stainless steel
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad: 1909819

Optional: Lightweight Transfer Board, 2012543

Pelvic Section Extension H V U · Part # 1909820

---

**Pediatric Legholder, Goepel**

Adjustable lower leg support with Velcro safety strap. Connects to siderail via Easy Lock Socket Clamp (111839).

- Dimensions (LxWxH): 20.47” x 14.17” x 3.74” (520 mm x 360 mm x 95 mm)
- Height adjustment range: 7.87” (200 mm)
- Weight capacity: up to 33.07 lbs (15 kg) please refer to user manual for more details
- Load-bearing structure made of stainless steel
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

*Requires: Easy Lock Socket Clamp, 111839*

Leg Holder Goepel for Children · Part # 4544789

---

**Band Uro Catcher**

Flexible band with integral clamps attaches to the end of the seat section or Pelvic Extension.

Band Uro Catcher · Part # 20-2001007

---

**Bag Uro Catcher, Single-use**

Pack of 10 bags.

Requires: Band, Uro Catcher, 20-2001007

Bag Uro Catcher · Part # 20-2001008 (pictured)
Drainage Bowl and Adapter

Attaches to siderail, guide rail allows precise adjustment in X and Y directions. Sturdy drainage bowl with removable strain screen and hose for drainage.

* Made of stainless steel

* Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Drainage Bowl Adapter - Part # 4544619

Collection Bowl - Part # 1218883

Drainage Bowl - Part # 4544618
Bariatric Security Strap, with Pad

Straps are adjustable up to 80°.
• Pad dimensions (L x W): 30” x 12”
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Bariatric Security Strap, with Pad · Part # 111809

Width Extender for TruSystem Tables, Pair

Connect to the siderails on the back, seat and foot sections via integral clamp. Extenders add a total of 10” to the table for an overall table width of 33.6” when applied to the TruSystem Surgical Tables.
• Dimensions (LxWxH): 22” x 5” x 6” (560 mm x 125 mm x 150 mm)
• Max load capacity: 55 lbs per side
• Load-bearing structure made of stainless steel
• Radiolucent
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
• Replacement pad: 111250

Width Extender for TruSystem Tables (pair) · Part # 1255814
Bariatric Nissen Thigh Strap, Pair

Padded straps offer the support larger patients need during steep reverse Trendelenburg positioning. The pad is wide and long to offer comfortable support. Integral clamps attach to siderail.

- Patient Weight Capacity: 1,000 lbs (454 kg)
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Nissen Thigh Strap, Bariatric, Pair · Part # 111951

Bariatric Table Width Extender, Pair

Increases support surface of surgical table by 8” on each side. Attaches to siderails associated with the back, seat, and leg sections. Short extender provides space on table rail for weight-bearing accessories.

- Patient weight capacity: 1,000 lbs
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Requires: Bariatric Table Width Expender Pads, call customer service to order (no applicable part number)

Bariatric Table Width Extender, 8” x 11” · Part # F-80150
Bariatric Table Width Extender, 8” x 15” · Part # F-80100

Boot Stirrups, Heavy Duty

- Patient weight capacity: 720 lbs
- Lithotomy range: +84° to -33° / Abduction range: +25° to -9°
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Replacement pad option: P-AMA12050.65-A
- Manufactored by Allen Amatech

Requires: (2) Rail Clamp, Simple, 20-2001006 or (2) Easy Lock, Blade Clamp, 111426

Optional: Stirrup Cart, F-30015

Heavy Duty Stirrups (pair) · Part # 111950
Pediatic

Horseshoe Headrest, Pediatric

Padded, horseshoe shaped headrest designed for prone or supine positioning for pediatric or smaller sized patients. Features extension bar for skull traction and durable comfort gel pads. Connects to Swivel Adapter (1218969).

- Made of cast aluminum
- Manufactured by Pro Med Instruments GmbH
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Leg Holder Goepel for Children · Part # 1218973

Pediatric Legholder, Goepel

Adjustable lower leg support with Velcro safety strap. Connects to siderail via Easy Lock Socket Clamp (111839).

- Dimensions (LxWxH): 20.47” x 14.17” x 3.74” (520 mm x 360 mm x 95 mm)
- Height adjustment range: 7.87” (200 mm)
- Weight capacity: up to 33.07 lbs (15 kg) please refer to user manual for more details
- Load-bearing structure made of stainless steel
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Requires: Easy Lock Socket Clamp, 111839

Leg Holder Goepel for Children · Part # 4544789
Traction Boot, Pediatric

Removable foot support with straps.
• For FX New Generation
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Traction Boot Children - Part # 1610541

Short Patient Transfer Board

Lightweight, roller-free board for patient transfer.
• Weight capacity: 500 lbs
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Optional: Narrow board Replacement Cap (F-83015) or Wide Board Replacement Cap, F-83016

Short, Wide Patient Transfer Board 32” x 20.5” - Part # F-83003

Short, Narrow Patient Transfer Board 40” x 16.5” - Part # F-83001
Anesthesia Screen Holder, Extendable

Two stainless steel, electrically insulated rods with lateral extension and safety ring. Height adjustable via clamp. Attaches to siderails.
• Vertical rod diameter: 1” (18 mm)
• Height adjustment: 20” (500 mm)
• Made of stainless steel
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Requires: Easy Lock Socket Clamp, 111839

Anesthesia Screen Holder · Extendable · Part # 4544710

Flexible Anesthesia Screen

Flexible shape allows for screen to be configured to any needed shape. Plastic encased metal allows screen to hold its position. Connects to siderails via 5/8” post.
• Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
• Manufactured by: Allen Amatech

Requires: Easy Lock Socket Clamp, 111839

Flexible Anesthesia Screen · Part # F-FAS
Anesthesia Screen, Mobile

Adjustable in width and height.
- Width: 59” - 79” (1500 mm - 2000 mm)
- Height: 45” - 79” (1130 mm - 2000 mm)
- Made of stainless steel
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Anesthesia Screen Mobile · Part # 4544009

Infusion Rod, 4-Hooks

Attaches to the siderails via integral clamp, height adjustable.
- Made of stainless steel
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Infusion Rod with 4 Hooks · Part # 4544708

Tubing Holder and Clamp

To attach resuscitation tubes and monitor cables to siderails.
- Manufactured by Teleflex Medical GmbH

Requires: Clamp for Tubing Holder, 1606992

Tubing Holder · Part # 1403003

Clamp for Tubing Holder · Part # 1606992

Tubing Holder and Clamp

To attach resuscitation tubes and monitor cables to siderails.
- Manufactured by Teleflex Medical GmbH

Requires: Clamp for Tubing Holder, 1606992

Tubing Holder · Part # 1403003

Clamp for Tubing Holder · Part # 1606992
For more information, reference the X-ray Grid Solution guide on pages 110 - 111.
Positioner for X-ray Cassettes

For X-ray cassettes with maximum dimensions of 15” x 15” (380 mm x 380 mm).
- Made of stainless steel
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Positioner for X-ray Cassettes · Part # 1256558

Grid Only

| Grid Only 103 LPI · Part # 111615 |
| Grid Only 132 LPI · Part # 111617 |
| Grid Only 178 LPI · Part # 111616 |
| Grid Only 215 LPI · Part # 111614 |

X-ray Cassette Holder

For taking vertical X-rays; rotation via swivel joint; lateral adjustment;
- Lateral adjustment: 15” - 24” (390 mm - 620 mm)
- Height adjustment: 2.5” (65 mm)
- Rotation angle: 360°
- Made of stainless steel
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

X-ray Cassette Holder COMFORT · Part # 1305492

Reina DR. Positioning Partner

Allows for additional imaging, specifically lateral.
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Reina Dr. Positioning Partner · Part # 112014

**TruSystem® 7500 Carbon X-TRA Tabletop**

One-part operating tabletop made of carbon fiber with electrically motorized adjustment of longitudinal and lateral slide, with coupling point at the head end for attaching head positioning accessories. Dimensions for tabletop with on-floor mounted column.

- Patient weight capacity: 396 lbs (180 kg)
- 360° radiolucent
- X-ray area - Head end: 55.1” x 20.5” (1400 mm x 520 mm), Foot end: 18.1” x 20.5” (460 mm x 520 mm)
- Longitudinal slide: 17.9” (455 mm)
- Lateral slide: ± 85 mm
- Dimensions (LxW): 82.1” x 22” (2085 mm x 560 mm)

**Free Float Carbon · Part # 1616201**

---

**TruSystem® 7500 Carbon FloatLine Tabletop**

One-part operating tabletop made of carbon fiber with electrically motorized adjustment of longitudinal and lateral slide with coupling point at the head end for attaching head positioning accessories. Dimensions for tabletop with on-floor mounted column.

- Patient weight capacity: 496 lbs (225 kg); articulated: 396 lbs (180 kg)
- 360° radiolucent
- X-ray area: Head end: 70.9” x 20.5” (1800 mm x 520 mm); with headrest: 82.7” x 20.5” (2100 mm x 520 mm)
- Longitudinal slide: 31.4” (80 cm) (fixed)
- Lateral slide: ± 4.9 in (± 12.5 cm)
- Trendelenburg / reverse Trendelenburg: ± 45°
- Tilt: ± 30°
- Dimensions (LxW): 90.1 in x 22 in (2290 mm x 560 mm)
- Replacement pad: 1797654

**Free Float Carbon · Part # 1616201**

---

**Operating Tabletop Carbon X-TRA 7500 U · Part # 1846397**
Arm Shield

Shield is slid between tabletop and tabletop pad and held in place by the weight of the patient. Not suited for tables with mushroom fasteners. Slides under back section. Pad to protect arms and keep them from falling off table. The radiolucent arm shield provides a comfortable, safe platform for surgical staff to lean on without harming patient or dislodging IVs. The soft flexible pad provides comfortable cushion reducing risk of pressure related injury.

- Dimensions (WxH): 15.75" x 7" (400 mm x 180 mm)
- Made of plexiglass
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables
- Manufactured by Allen Amatech

Arm Shield · Part # 1939050
Joint Plate Carbon with Clamps, Pair

Used with Joint Plate Carbon Clamp, pair (1272324) to offer flexibility of siderails on carbon components.

- Dimensions (LxWxH): Joint Plate Carbon 370 - 8" x 16" x 0.2" (200 mm x 420 mm x 6 mm); Joint Plate Carbon 520 - 8" x 22" x 0.2" (200 mm x 570 mm x 6 mm)
- Made of carbon fiber
- Radiolucent
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

Requires: (1) Joint Plate Carbon Clamp, pair, 1272324

<table>

Clamp Pair for Joint Plate Carbon - Part # 1272324

Extension Tray

Slides on to the end of siderails and attaches via integral clamps. Commonly used at head or foot section.

- Dimensions (L x W): 39.3" x 22" (100 mm x 560 mm)
- Compatible with TruSystem 7000, 7000dV and 7500 Surgical Tables

What is an X-Ray Grid?
An X-ray grid is the part of an X-ray machine or cassette system that filters out randomly deflected radiation that can obscure or blur an image produced by the machine. It was invented in 1913.
A grid is utilized on most “hard-film” X-rays (vs. C-Arm fluoroscopy) during surgical procedures.

Purpose
An X-ray grid is a filtering device that ensures the clarity of the image on X-ray film or digital detector. When an X-ray machine sends radiation through an object, specifically a body, the object absorbs or deflects most of the rays. Only about 1 percent of the X-rays pass through the body on a straight line and burn an image onto the film. The deflected X-rays can hit the film at random angles, obscuring the image. The grid filters out these random X-rays.

Design
An X-ray grid in its most basic form is a grate with a series of narrow strips of metal that stop X-rays--usually lead, nickel or aluminum. The grid resembles a set of horizontal window blinds that is partially open. X-rays that create the true image on the film travel in a straight line, so they will pass right through the grid. Deflected X-rays that would add noise to the image hit the grid strips at an angle and will not hit the film.

Precision
To ensure that enough of the X-rays that are traveling on a straight-line pass through the grid, the strips of metal on the grid must be extremely thin.
Hill-Rom is a leading global medical technology company with more than 10,000 employees worldwide. We partner with health care providers in more than 100 countries, across all care settings, by focusing on patient care solutions that improve clinical and economic outcomes in five core areas: Advancing Mobility, Wound Care and Prevention, Patient Monitoring and Diagnostics, Surgical Safety and Efficiency and Respiratory Health. Our innovations ensure caregivers have the products they need to help diagnose, treat and protect their patients; speed up recoveries; and manage conditions. Every day, around the world, we enhance outcomes for patients and their caregivers. Learn more at hill-rom.com.
