VENTILATION SYSTEM

NON-INVASIVE VENTILATION MOVING RECOVERY FORWARD

NON-INVASIVE VENTILATION WITH TRUE MOBILITY

People with COPD and other pulmonary-compromising conditions requiring ventilation should be able to live their lives with as little restriction as possible. The **Life2000** ventilation system may help them do that. With its stationary and wearable configurations, it's designed to enable mobility and activity for pulmonary-compromised adult patients, allowing them to enjoy activities of daily living (ADLs) inside and outside the home.¹

FEATURES

- Light and portable mobile ventilator weighing one pound
- No mask required
- Three clinician-configured, patient selectable, activity settings allowing the patient to choose the level of support needed
- Volume-control ventilator for adults requiring partial or total life support
- Reimbursable therapy under HCPCS code E0466

85% MORE ABILITY

to perform activities of daily living¹

THE CARE CONNEX PROGRAM BY BAXTER

Baxter created the **CARE Connex** program to deliver comprehensive services at every step of the patient journey, offering new efficiencies for your business and better therapy outcomes for your patients. We work with over a thousand leading local, regional and national insurance companies to include commercial health plans and networks, Medicaid, Medicare, TRICARE and the Department of Veterans Affairs.

 Insurance provider services

 Continuing education courses

 24/7 clinical care with multilingual customer service and product support

 Clinical in-home assessments, trainings, outcomes monitoring and reporting

 600+ in-home licensed clinicians

 E-Prescribing available [Parachute, Epic, Cerner, Allscripts and others]

SUPPORTING YOU AT EVERY STEP

Once a prescription is received, the **CARE Connex** high-touch clinical service team engages and motivates your patients. Multiple face-to-face and virtual touchpoints along the patient care journey allow our clinical team to assess, train and answer any questions from patients and caregivers to help them stay consistent with their therapy.
