AIRWAY CLEARANCE SYSTEM

WHERE THERAPY IS MOVING

HELPING YOU AND YOUR PATIENTS BREATHE EASIER

Imagine how the quality of your patients' lives could be improved if they were given the freedom to do their airway clearance therapy while still doing everyday activities. That's exactly what our **Monarch** airway clearance system is designed to do. The **Monarch** system employs revolutionary technology to provide High Frequency Chest Wall Oscillation (HFCWO) therapy in a mobile way.

WHERE THERAPY IS MOVING

With its innovative technology, the **Monarch** system lets your patients move about freely even as they receive targeted kinetic energy and airflow to thin and mobilize airway secretions. And, with the **Connex** app and health portal, the **Monarch** system enables collaboration between you and your patients—with the ability to easily see your patients' therapy session results and make informed decisions about their care plans.

FEATURES

- Eight Pulmonary Oscillating Discs (PODs) are positioned to deliver targeted kinetic energy
- Multiple programming options
- Sportswear-inspired design
- Quiet operation enables easy conversation
- Rechargeable battery

THE CARE CONNEX PROGRAM BY BAXTER

Baxter created the **CARE Connex** program to deliver comprehensive services at every step of the patient journey, offering new efficiencies for your business and better therapy outcomes for your patients. We work with over a thousand leading local, regional and national insurance companies to include commercial health plans and networks, Medicaid, Medicare, TRICARE and the Department of Veterans Affairs.

-  Insurance provider services
-  Continuing education courses
-  24/7 clinical care with multilingual customer service and product support
-  Clinical in-home assessments, trainings, outcomes monitoring and reporting
-  600+ in-home licensed clinicians
-  E-Prescribing available [Parachute, Epic, Cerner, Allscripts and others]

SUPPORTING YOU AT EVERY STEP

Once a prescription is received, the **CARE Connex** high-touch clinical service team engages and motivates your patients. Multiple face-to-face and virtual touchpoints along the patient care journey allow our clinical team to assess, train and answer any questions from patients and caregivers to help them stay consistent with their therapy.
