

THE MOST COMPLETE COUGH SOLUTION

## GOING FURTHER FOR PATIENT HEALTH AND COMFORT

For patients with compromised lung function, cough simulation can be a lifesaving therapy. At Baxter, we set out to make this therapy as effective and comfortable as possible. The **Synclara** cough system is the result, using Mechanical Insufflation-Exsufflation (MIE) technology to simulate a cough, evacuating secretions that could otherwise collect in the upper airways.

## DESIGNED AROUND THE NEEDS OF YOUR PATIENTS

Designed to be easily individualized, the

Synclara system optimizes treatment for a broad range of patients with complex and changing needs, in acute and homecare settings. And, we've added patient-centric features like Patient Synchrony and the novel Positive Air Pressure (PAP) on Pause that make it the most complete cough solution—for use from hospital to home.

## **FEATURES**

- Acute and homecare models available
- Use with mask, mouthpiece or tracheostomy
- Choose from automatic or manual therapy delivery modes
- Small and light, adaptable to virtually any setting

THE **CARE CONNEX** PROGRAM BY BAXTER

Baxter created the **CARE Connex** program to deliver comprehensive services at every step of the patient journey, offering new efficiencies for your business and better therapy outcomes for your patients. We work with over a thousand leading local, regional and national insurance companies to include commercial health plans and networks, Medicaid, Medicare, TRICARE and the Department of Veterans Affairs.

Insurance provider services

24/7 clinical care with multilingual customer service and product support

600+ in-home licensed clinicians

Continuing education courses

Clinical in-home assessments, trainings, outcomes monitoring and reporting

E-Prescribing available (Parachute, Epic, Cerner, Allscripts and others)

Once a prescription is received, the **CARE Connex** high-touch clinical service team engages and motivates your patients. Multiple face-to-face and virtual touchpoints along the patient care journey allow our clinical team to assess, train and answer any questions from patients and caregivers to help them stay consistent with their therapy.

In-home Assessment as Needed
