April 1, 2017

Dear Valued Customer,

Welch Allyn has discontinued production of our Connex<sup>®</sup> Vital Signs Monitor (CVSM) 6300 Series on April 1, 2017. We will continue to manufacture the CVSM 6400, 6500, 6700 and 6800 Series.

If you have recently purchased a CVSM 6300, be assured we are not leaving you behind. Welch Allyn is committed to providing service for your CVSM 6300 Series for a period up to five years or as long as parts and components are available from our suppliers.

As a replacement option for our CVSM 6300 Series, we would like to introduce to you the Connex<sup>®</sup> Spot Monitor, which provides industry leading vital signs parameters and electronic documentation with a very similar interface to the CVSM 6300. Feel free to call us at 1-800-535-6663 for more details, or talk to your Welch Allyn sales representative to create a transition plan for your facility.

Please contact our Customer Service department or your Welch Allyn representative at 1-800-535-6663 to learn more about Connex products or if you have any questions regarding this notice. We appreciate your understanding in this matter and will continue to help you provide the best possible patient care.

Sincerely,

A handwritten signature in blue ink that reads "Tiffany Moon".
