Baxter Customers  
Welch Allyn Inc.  
4341 State Street Road, P.O. Box 220  
Skaneateles Falls, NY 13153-0220 USA

Dear Baxter Customer,

This letter is to inform customers of the **discontinuation** of our **Stethoscope, Laryngoscope, and Endoscope** products.

Effective March 31<sup>st</sup>, 2026, Baxter will no longer be accepting orders for **all models** of Stethoscopes, Laryngoscopes, and Endoscopes (which includes Anoscopes & Sigmoidoscopes).

For reference, a list of product names has been provided in Attachment 1.

Baxter will continue to provide warranty and service support for the products within these categories up to their allotted warranty periods, or for as long as parts are available. Replacement parts and accessories will be available for purchase for 5 years, or until inventory runs out.

Due to supply constraints, there will not be an opportunity for any Last-Time-Buys beyond any existing agreements.

Thank you for being a valued Baxter customer. If you have any questions about these products, please contact your local sales representative.

Best Regards,

Morgan Bacik – Associate Manager, Product Management
