

Meet your new ally in blood pressure management.

One in three Americans has high blood pressure, according to the American Heart Association. If you're one of them—or at risk but not yet diagnosed—regular monitoring of your blood pressure is an important tool in managing your condition.

Home monitoring makes it convenient. Welch Allyn Home™ makes it accurate and easy.

With the Welch Allyn Home Hypertension Program, you take home readings on a clinically validated device from the leader in vital signs. Then you share your results with your doctor—automatically, if they're participating in the program. It's the solution designed for superior accuracy and simplicity to give you the best shot at better health.

Working together to improve your health.

Welch Allyn is the brand recognized by doctors for superior quality in vital signs monitoring (look for our logo in the exam room during your next visit). Now, that attention to quality and accuracy comes home with the Welch Allyn Home Hypertension Program.

This *physician-trusted* home solution has three components.

For you:

Blood Pressure Monitor—

Based on the technology used by your doctor, but with one-button operation for accurate results in just 20 seconds.¹

Easy to use

Free App—

Automatically and securely sends your readings to your doctor, as well as stores and tracks results for you.

Easy to connect

For your physician:

Clinical Portal—

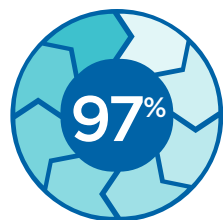

Provides direct connectivity, which is proven to help get patients to their target blood pressure.²

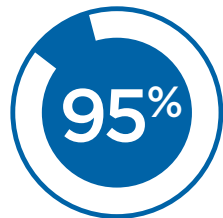

Clinical accuracy

to accurate blood pressure reading with the Welch Allyn Home device—fastest on the market¹

success rate in presence of motion (other devices don't tolerate motion)¹

of physicians surveyed would recommend a Welch Allyn blood pressure device over comparably priced options¹

Getting started is easy.

Order your device online.

- Follow the link in the email sent by your doctor's office—or go directly to WelchAllynHome.com
- Enter the coupon code for \$20 off
- Pay by FSA, HSA, or credit card
